Emily Hamburg

Proponent, HB 2803, with written testimony only

Bel Aire, KS 67220, emilythora@hotmail.com

To: Chairman Carpenter and members of the House Committee on Federal and State Affairs

I am testifying in support of HB 2803 to protect law-abiding Kansans against unconstitutional overreaches of the federal government violating their gun rights, to protect Kansas taxpayers from having local resources used to carryout these violations, and to provide an avenue of recourse if such a violation does occur.

States are duty-bound to protect its residents and resist any overreach of the federal government. This bill does so in a straightforward and uncompromising manner. I strongly urge you to support HB2803.

Thank you for your consideration.

Sincerely,

Emily Hamburg

Bel Aire, KS
