HB2729 Proponent Written Only Testimony

Name: Jaime Kissinger

Members of the Committee,

As a constituent of Sedgwick County Kansas, I am a proponent to ensure financial freedom and stability. Acknowledging gold and silver as legal tender gives individuals the option to use sound money alternatives that hold their value over time. This not only protects the assets of individuals who choose to store their bullion but also ensures transparency and accountability in the handling of these assets by promoting financial variety, stability, and choice financial system.

Please consider passing HB2729 out of committee.

Sincerely,

Jaime Kissinger
