House Committee on Judiciary

HB 2599, Proponent, written testimony only

Respected Chair and Committee Members,

I have contributed money for KORA requests submitted by fellow patriots simply so that patriot doesn't carry the burden alone of getting valuable information to keep our County as transparent as possible. I have submitted my own KORA requests under threat of being charged for my request. Once I tailored it way down, I got it for no cost, but I resented the threat (which I call it) just the same.

With computers and all the electric filing we have, information we seek should be easily attainable with the "cost" of a few keystrokes.

Please pass out HB 2599 favorably from Committee.

Most sincerely,

Jill O'Connor
