

Senate Judiciary Committee
HB 2755
PROPONENT
March 20, 2024

Chairwoman Warren and Members of the Committee on Judiciary:

My name is Joshua Liby. As a licensed bail enforcement agent in the state of Kansas, I had to pass a federal background check. I feel that anybody involved in the bail bonds business should have to undergo the same background check. Anybody posting bonds in the state of Kansas should be held to the same standard.

Bond schedules are set for a reason and when people are undercutting the 10% premium, they are undercutting the justice system. HB 2755 is a change that is necessary for the bail bonds system.
