# MEMORANDUM

To: House Committee on Health and Human Services
From: Office of Revisor of Statutes
Date: February 11, 2026
Subject: Bill Brief on House Bill 2765

**House Bill 2765** adds and removes certain substances from schedules I, III and IV of the uniform controlled substances act and makes conforming changes to the definition of fentanyl-related controlled substances in the criminal code.

Section 2 amends K.S.A. 65-4105, which is schedule I of the uniform controlled substances act. The bill would strike over 50 substances in subsection (b), which generally all are a fentanyl derivative because a new subsection (i) is added that provides a definition of "fentanyl-related controlled substance" as any substance structurally related to fentanyl by one or more of the modifications listed in the bill. New drugs would also be designated in subsection (b) at paragraphs 13, 24, 25, 26, 30, 32, 38, 39, 40, 45, 46, and 47. A new drug is added in subsection (f), paragraph 13 and subsection (h) paragraphs 13 and 14.

Section 1 amends K.SA. 21-5701, which is the definitions section in the criminal code for crimes involving controlled substances. In this statute, the definition of "fentanyl-related controlled substance" is changed to reflect the deletion of the numbered substances and the insertion of the definition in subsection (i) of schedule I.

Section 3 amends K.S.A. 65-4109, which contains schedule III drugs. Subsection (f), which contains anabolic steroids has new substances added as paragraphs 65 through 86.

Section 4 amends K.S.A. 65-4111, which contains schedule IV drugs. Subsection (b), which contains drugs with a depressant effect has a new substance designated in paragraph 60 and the spelling of modafinil is corrected in subsection (d).

The bill would take effect upon publication in the statute book, July 1, 2026.
