For the last 40 years, We have lived about 7 miles from Edgerton Kansas, and have spent the last three years fighting to keep Edgerton and North Point from annexing farmland next to us for warehouses.
The land that Edgerton wants to annex is a patchwork of tracts that is miles from the town so if they are successful we will have warehouses next to and in the back of our homes.
They are saying that we don't have standing because North Point has purchased a patchwork of properties with inconsistent boundaries and since they are the only one asking for annexation they are the only one with standing. That leaves us helpless and without representation.
Please provide us with some protection by passing Bill 124

Thank you
Dennis Koch
