gratitude is an attitude ! !

Chairwoman Bowers and members of the committee,
Thank you for considering SB 124. As a land owner and rancher in Geary County, I'm totally opposed to Junction City being able to annex my property without my consent or even imminent domain of my property, if I refuse to be annexed. Either one, I have no say. This should be unconstitutional. Thank you for addressing this and hopefully passing SB124. I hope and pray the 3 mile zone will be repealed next. The city commissioners shouldn't have this much power over land owners who are not even allowed to vote or run for city commissioner.

Thank you,
Ernie Augustein
