Prayer by Chaplain Chamberlain:

Almighty God, on a day when we will be asked to consider the state of our Union, we lift our voices in prayer for our country, for our president, for our legislatures and for our courts.

Thank you, Lord, for the gifts that we have received and for the opportunities that they give us to live as a nation in freedom and prosperity. Thank you for leaders who have challenged us and led us to be a nation of welcoming shores, of open opportunity, and of democracy and freedom for all peoples.

Where we have failed to live up to your purpose, forgive us. Where we have grown weary of the struggle, renew us. Where we have grown impatient with progress, give us new patience and tolerance. Above all, give us vision, that the state of our Union may remain always faithful and that we may be found to be a people who continually look to you and to your providence for the blessings of life.

Bless us Lord, and these the United States of America, the land that we love. Amen.

The Pledge of Allegiance was led by Rep. Horst.

HOUSE CONCURRENT RESOLUTION No. 5005—

By Representative F. Miller

A CONCURRENT RESOLUTION urging Congress to modify the provisions of the National Voter Registration Act of 1993 to simplify the procedure for removal of voters from voter registration lists.

WHEREAS, The National Voter Registration Act of 1993 imposed national standards upon the states regarding creation and maintenance of lists of registered voters; and

WHEREAS, The required notification procedure could be simplified to require the state or local election official only to provide to the public a general notice stating that if a voter has not voted in the two preceding elections for federal office, such voter must vote in the next general election for federal office or else such voter's name will be deleted from the voter registration list; and

WHEREAS, The national standards create an onerous, costly and time consuming notification procedure which must be followed before a voter's name may be deleted from a voter registration list; and

WHEREAS, The current standards and procedures for removal of a voter's name from a voter registration list could be simplified for state and local election officials by allowing a voter's name to be removed, without notification, for failure to vote in, at most, three consecutive general elections for federal office: Now, therefore,

*Be it resolved by the House of Representatives of the State of Kansas, the Senate concurring therein:* That the Legislature strongly urges the Congress of the United States to amend the appropriate sections of the National Voter Registration Act of 1993 to allow state and local election officials to replace the current onerous, costly and time consuming notification procedure with a simpler procedure only requiring that the state or local election official only to provide to the public two general notices stating that if a voter has not voted in the two preceding elections for federal office, such voter must vote in the next general election for federal office or else such voter's name will be deleted from the voter registration list. The first notification must be issued two weeks before the date of such election and the second notification must be issued one week before the date of such election; and

*Be it further resolved:* That the Legislature strongly urges the Congress of the United States to amend the appropriate sections of the National Voter Registration Act of 1993 to allow state and local election officials to remove a voter's name from a voter registration list for failure to vote in, at most, three consecutive general elections for federal office in lieu of following the currently required notification procedure; and

*Be it further resolved:* That the Secretary of State is directed to send enrolled copies of this resolution to each member of the Kansas Congressional Delegation.

HOUSE CONCURRENT RESOLUTION No. 5007—

By Committee on Utilities

A CONCURRENT RESOLUTION urging the Federal Energy Regulatory Commission to take action to ensure expansion and improvement of the electric transmission system to meet the nation's energy needs.

WHEREAS, The electric transmission system in the United States is an extensive network of high-voltage power lines which transport electricity from generators to consumers and which must accommodate the nation's growing demand for reliable and affordable power; and

WHEREAS, The system is rapidly becoming congested due to growth in demand, investment in new generation facilities and lack of investment in expansion and improvement of transmission facilities; and

WHEREAS, Expansion and improvement of the transmission system is vital to the national interest because congestion creates bottlenecks which result in decreased reliability, less competition, higher prices to consumers and increased infrastructure vulnerability; and

WHEREAS, Kansas is third in the nation in wind energy production potential and has adopted incentives for investment in wind generation and generation from other resources, but expansion of generation is dependent on a transmission system that will efficiently and reliably deliver power to markets; and

WHEREAS, The existing transmission system, while capable of providing reliable service to the native load in Kansas for the foreseeable future, does not have capacity to import

additional power from outside the state or export additional power to markets beyond the state's boundaries unless the system is redesigned to do so; and

WHEREAS, Because uncertainty in how transmission system expansion and improvements will be financed and lack of regulatory direction hamper investment in transmission facilities, the leadership of the Federal Energy Regulatory Commission is crucial to resolution of the problems that exist in the transmission system: Now, therefore,

*Be it resolved by the House of Representatives of the State of Kansas, the Senate concurring therein:* That the Legislature urges the Federal Energy Regulatory Commission to assume an aggressive leadership role in development of sufficient transmission infrastructure to support the nation's growing energy needs and to provide expeditiously for the establishment of standard market design and implementation of regional transmission organizations; and

*Be it further resolved:* That the Secretary of State is directed to provide a copy of this enrolled resolution to each member of the Federal Energy Regulatory Commission, the President of the United States, the Vice-President of the United States, the United States Secretary of Energy, the President Pro Tempore of the United States Senate, the Minority Leader of the United States Senate, the Speaker of the United States House of Representatives, the Minority Leader of the United States House of Representatives, each member of the Kansas Congressional delegation, the State Corporation Commission, the Nebraska Power Review Board, the Missouri Public Service Commission, the Oklahoma Corporation Commission and the Public Utility Commission of Texas.
