### LEGISLATIVE SERVICES AND FACILITIES

The Joint Committee on Legislative Services and Facilities met on February 19, 1969, at 8:30 a. m., for the purpose of interviewing two candidates for the position that was vacant on the committee. Present were: Senators Ross Doyen, Glee Smith, Joseph Harder and Joseph Warren; Representatives Donald Bell, Richard Mankin and Calvin Strowig; and Ben Barrett, representing the Research Department. Candidates interviewed were Norman Bomar and Michael Burris.

Norman T. Bomar is, at the present time, convention manager and in charge of personnel and procedures for Ramada Inn. His qualifications are herewith attached.

In response to the question by Representative Bell regarding what salary Mr. Bomar would expect to receive, he answered that he would be taking a decrease if he accepted the job at \$7500 per year.

The candidate expressed his opinion of being capable of working with all types of individuals. He felt confident that he could handle the research part of the position, as well as the purchasing the job would entail.

Representative Strowig asked how soon Mr. Bomar would be able to begin work if the committee saw fit to hire him. He replied that he could be available by March 1 or March 15.

Michael Burris was then interviewed by the Committee. A resume of his qualifications is herewith attached.

Mr. Burris stated his interest in the position was "to get his feet wet from a practical standpoint." He has made application for a research internship at Kansas University, but was mainly interested in a permanent position.

Mr. Burris stated he was about "half-way" to a Master's Degree, and was writing his thesis on the subject of violence.

In response to a question by Senator Doyen, the candidate stated he had taken several courses in research in his college curriculum.

Representative Strowig inquired as to whether Mr. Burris' research could be done on an analytical basis and not have his own interpretations, to which he answered that any research he had done had been with the facts that had been presented.

The candidate felt capable of supervising personnel without any difficulty.

Senator Doyen asked what salary Mr. Burris would expect, to which the candidate answered that he would be interested in arguing at a higher salary than \$7200 a year.

After the applicants were dismissed, Senator Doyen stated that he felt Rex Cowl was still interested in the position and should be given further consideration by the Committee.

Ben Barrett stated that at the request of Senator Doyen, he had contacted various colleges and universities regarding candidates for the position. It was his understanding there would not be men available before June 1, 1969.

Several committee members expressed the feeling it would be better to wait and hire the right person, rather than hire someone the Committee did not especially desire. It was the general consensus that Mr. Bomar did not have the potential and education necessary for the position.

Before adjourning the meeting, Senator Doyen mentioned the possibility of changing the position of the coffee bar. It was the feeling of the Committee that all the space was needed, and that Mr. Hale to notified to look elsewhere for a location.

The meeting was adjourned.
