MINUTES OF THE HOUSE COMMITTEE ON EDUCATION

The meeting was called to order by Representative Don Crumbaker at  
Chairperson

3:30 ~~xxm.~~/p.m. on February 2, 1983 in room 423-S of the Capitol.

All members were present except:

Committee staff present:

Avis Swartzman, Revisor of Statutes  
Ben Barrett, Legislative Research  
Carolyn Rampey, Legislative Research  
Richard Ryan, Legislative Research  
Dale Dennis, State Department of Education

Conferees appearing before the committee:

Ben Barrett, Legislative Research, and Dale Dennis, State Department of Education, reviewed the School District Equalization Act for the Committee. They distributed statistics which are attached and made a part of these minutes. (Attachments A-I)

Mr. Barrett pointed out that, while school district budgets had increased 147.4% in the past ten years, state aid had increased 252.7% and property taxes had increased 93.5%. During this same period of time, school enrollments have decreased by 18.3%, but the number of certificated employees had increased by 3.7%.

The meeting was adjourned by the Chairman.

## EXPLANATION OF DISTRICT POWER EQUALIZING CONCEPT

Comment: Spending for education in a district is not a function of district wealth, but of the wealth of the state as a whole. The budget per pupil may be determined locally, but when the local board decides to increase expenditures it also must make a commensurate increase in its taxing effort. The local board knows that at whatever level it chooses to spend, the district will be making the same taxing effort as other districts spending at the same level, regardless of the wealth of the various districts.

KANSAS SCHOOL DISTRICT EQUALIZATION ACT

DECEMBER 10, 1982

BASIC GENERAL STATE AID FORMULA 1982-83  
(IGNORING THE "GRANDFATHER" CLAUSE)

$$\text{U.S.D. GENERAL FUND BUDGET} \text{ MINUS } \left( \text{DISTRICT WEALTH}^a \times \text{LOCAL EFFORT RATE}^b + \frac{85\% \text{ OF INCOME TAX REBATE}^c}{\text{PL. 874 RECEIPTS}} + \text{MOTOR VEH. TAX}^d + \text{MTR. VEH. DEALER STAMP TAX}^e + \text{REVENUE BOND IN-LIEU PAYMENTS}^e \right) \text{ EQUALS GENERAL STATE AID}$$

a. In 1982-83, three-year average of adjusted property valuation and resident taxable income in the district. In 1983-84, a two-year average will be used and in 1984-85, a one-year sum will be used.

b. DISTRICT'S BUDGET PER PUPIL (B.P.P.)  
B.P.P. "NORM" FOR THE DISTRICT'S ENROLLMENT CATEGORY

$$\text{B.P.P. "NORM" FOR THE DISTRICT'S ENROLLMENT CATEGORY} \times 1.385 \% \text{ (EST.)}^* = \text{LOCAL EFFORT RATE}$$

\* Set by State Board of Education within the limits of appropriations for state school equalization aid, after payment of transportation aid entitlements.

ESTIMATED 1982-83 B.P.P. "NORMS"			
ENROLLMENT (E)	"NORM" B.P.P.	ADJUSTMENT	
Under 200	\$ 3,259	\$ NONE	
200	399	2,855 (E-200)	
400	1,699	2,688 .4262 (E-400)	
1,700	9,999	2,134 NONE	
10,000 and Over		2,222*	NONE

\* For 1982-83, this amount is based on 100.5 percent of the median of districts having enrollments of 1,700 or more plus one-third of the difference between such amount and the median of the four districts having enrollment of 10,000 or more.

- c. Twenty percent of resident individual income tax liability after credits, except credits for income taxes paid to another state, withholding and estimates.
- d. Applicable amount determined under federal rules and regulations based upon a ratio of school district operating revenues that are "equalized".
- e. Amount of prior year's receipts from these sources credited to the school district general fund.

MEMORANDUM

Kansas Legislative Research Department

July 21, 1982

THE INVERSE RELATIONSHIP BETWEEN DISTRICT WEALTH PER PUPIL  
AND THE RATIO OF STATE AID TO GENERAL FUND BUDGETS

1981-82

The effect of the general state aid formula under the School District Equalization Act (SDEA) is that, as a general rule, there is an inverse relationship between a district's wealth per pupil and the ratio of state aid to the district's general fund budget. That is, districts with low wealth per pupil have a higher proportion of their budget financed by state aid than districts with high wealth per pupil. This principle has obtained each year, with only minor variations, since the SDEA was enacted in 1973.

Two tables are attached to illustrate the principle. Table I includes the 30 districts with the largest enrollments in 1981-82 while Table II includes the 31 districts with the smallest enrollments. (Each table accounts for about 10 percent of the total number of districts.) In that school year, wealth per pupil was based on the most recent four-year average of adjusted valuation and taxable income in each district, divided by its enrollment on September 15, 1981. The "aid ratio" was computed by dividing the sum of general state aid, income tax rebate (100 percent), and P.L. 874 receipts deducted in computing general aid by the district's legally authorized general fund budget.

Among the 30 largest districts, the inverse relationship between wealth per pupil and the aid ratio was nearly perfect. The only variations, which were minor, can be explained by the fact that 85 percent of the income tax rebate is deducted in computing general state aid while all of the rebate was included in the computation of the aid ratio.

As to the 31 smallest districts, the inverse relationship applied in general, but there were a number of exceptions. Fifteen of these districts received only the income tax rebate (no general aid) and, of course, the amount of the rebate varies among districts depending on the individual income tax liability of their residents. Another three districts received only the rebate and "grandfather clause" general aid, but no basic general aid. One district received the rebate, basic general aid, and "grandfather clause" general aid. And, as noted in the case of the 30 largest districts, not all of the rebate is deducted in computing basic general state aid. These factors accounted for the deviations from the general rule of the inverse relationship between wealth per pupil and the aid ratio.

For informational purposes, both tables also show the enrollment, budget per pupil, and adjusted general fund tax rate for each district.

\* Sum of general state aid (adjusted for any refunds or overpayments), 100 percent of the income tax rebate, and PL 874 receipts deducted in computing general aid, divided by district's general fund budget.

\*\* The tax rate (mills) required on adjusted valuation to raise the same amount as the actual tax rate on assessed valuation. Adjusted valuation is based on all taxable property being assessed at 30 percent of market value.

Note: These were the 30 largest districts in terms of enrollment, and they had 55 percent of state total enrollment.

\* The year before the School District Equalization Act took effect.

\*\* Based on legislation enacted in 1982, adjusted to incorporate the 4 percent reduction of school equalization, special education, vocational education, food service, and bilingual education aid as well as the revised consensus estimate of income tax receipts.

1. For the years 1972-73 through 1977-78, includes special fund tax levies eliminated in 1978 in order to make the budget data comparable to that for the years after 1977-78.
2. Includes Ft. Leavenworth. School District Equalization Act aid, general fund budgets, enrollments and certificated employees do not include Ft. Leavenworth.
3. In 1978 six special tax levies were eliminated and, in effect, were made part of the general fund levy.
4. Employer contribution paid by the state to the Kansas Public Employees Retirement System on behalf of school districts, community colleges, and area vocational schools.
5. Does not include employees of special education cooperatives or interlocal agreements (separate legal entities).
  - a) The first of three distributions to be made each school year was paid in May 1974.
  - b) The first distributions were made in calendar year 1979.
  - c) The first distributions were made in calendar year 1981. Due to difficulties associated with implementation of this program, receipts in this year were smaller than anticipated.
  - d) Distributions in this year are expected to be greater than otherwise would be anticipated due to distributions made after July 1, 1981, that normally would have occurred earlier. (See (c) above.)
  - e) Unaudited.

Prepared by Kansas Legislative Research Department  
Revised: January 29, 1983

a) The 1973 School District Equalization Act reduced the county fund tax levy from 10 mills on adjusted valuation to 2 mills on 1971 valuation adjusted to 30 percent. In 1973, the levy was reduced from \$16.6 million to \$14.1 million by distribution of about \$2.5 million from the local ad valorem tax reduction fund (LAVTRF). Legislation enacted in 1974 eliminated the LAVTRF distribution to the county foundation fund, which accounts for the increase in the 1974 levy therefor.

b) Decrease was due primarily to 1974 legislation which provided that the local cost of postsecondary students who attend area vocational schools shall be paid by the state (90%) and by the students (10%), instead of by the unified school district.

c) New separate tax levy authorized by 1974 legislation.

d) New separate levy authorized by 1977 legislation.

e) Includes approximately \$14,000 in 1980, \$15,000 in 1981, and \$18,000 in 1982 levied by one school district for a community historical museum under KSA 12-1681 et seq.

\* 1978 legislation eliminated tax levies for the county foundation fund, social security, vocational education, special education, workmen's compensation, and unemployment insurance, in effect making such levies a part of the general fund levies.

**Special Note:** This table does not include the school districts' share of the stamp tax imposed in 1978 on the sale of motor vehicles by dealers or of revenue from the motor vehicle "tax and tags" law enacted in 1979, both of which are in lieu of the general property tax. Distributions from the stamp tax were first made in 1979. Motor vehicles now subject to the "tax and tags" law were excluded from the general property tax base in 1980 and distributions under the new law were first made in 1981. In fiscal year 1982, for example, school districts received about \$817,000 from the stamp tax and \$51.1 million from in-lieu tax on motor vehicles.

1. Total cost of transportation--1981-82 (do not include activity trips)  
(This amount corresponds to amount shown on Annual Report, Form 2230-18E,  
1981-82) . . . . . \$ 277,462

Item VIII, Line 2) . . . . . 583
8. Adjusted transportation cost per pupil (Line 6 divided by Line 7) . . . \$ 453.33
9. Area of district in square miles, 9/15/82. . . . . 430
10. All public pupils transported who reside in the district 2.5 miles or more  
or for whom transportation is being made available September 15, 1982  
(Estimated) . . . . . 563
11. INDEX OF DENSITY = 563 divided by 430 = 1.31  
Line 10                          Line 9
12. Using Index of Density (Line 11), determine approximate amount from table  
below . . . . . \$ 439.00
13. Per pupil cost (Line 8) . . . . . \$ 453.33
14. District's transportation allowance per pupil (Total in Line 12 or 13,  
whichever is lower) . . . . . \$ 439.00
15. Resident public pupils transported September 15, 1982 (Estimated). . . .  
(Residing 2.5 miles or more from the school house attended or for whom  
transportation is being made available at district expense) 563.00
16. ESTIMATED TRANSPORTATION ALLOWANCE, Line 14 times Line 15 (7/1/82 to  
6/30/83) . . . . . To Budget, Code II, Col. 3, Ln. 75 . . . . . \$ 247,157
17. Fifty percent of Line 16 for payment estimated September 25, 1983  
(7/1/83 to 12/31/83) . . . . . To Budget, Code II, Col. 3, Ln. 76 . . . . . \$ 123,579

## DENSITY (Pupils Per Square Mile)

Less than .11 = 815	.33 to .35 = 606	.57 to .59 = 532	1.13 to 1.23 = 448	5.23 to 6.23 = 306
.11 to .13 = 782	.35 to .37 = 597	.59 to .61 = 528	1.23 to 1.33 = 439	6.23 to 7.23 = 294
.13 to .15 = 751	.37 to .39 = 590	.61 to .63 = 524	1.33 to 1.43 = 431	7.23 to 8.23 = 282
.15 to .17 = 727	.39 to .41 = 583	.63 to .65 = 520	1.43 to 1.53 = 425	8.23 to 9.23 = 276
.17 to .19 = 707	.41 to .43 = 575	.65 to .67 = 516	1.53 to 1.63 = 418	9.23 to 10.23 = 268
.19 to .21 = 689	.43 to .45 = 570	.67 to .69 = 512	1.63 to 1.73 = 411	10.23 to 11.23 = 263
.21 to .23 = 673	.45 to .47 = 563	.69 to .71 = 509	1.73 to 2.23 = 395	11.23 to 12.23 = 257
.23 to .25 = 659	.47 to .49 = 557	.71 to .73 = 505	2.23 to 2.73 = 374	12.23 to 13.23 = 252
.25 to .27 = 647	.49 to .51 = 552	.73 to .83 = 495	2.73 to 3.23 = 356	13.23 to 14.23 = 248
.27 to .29 = 635	.51 to .53 = 547	.83 to .93 = 481	3.23 to 3.73 = 345	14.23 to 15.23 = 243
.29 to .31 = 625	.53 to .55 = 541	.93 to 1.03 = 469	3.73 to 4.23 = 334	15.23 to 16.23 = 239
.31 to .33 = 615	.55 to .57 = 537	1.03 to 1.13 = 458	4.23 to 5.23 = 220	16.23 to Over = 226
