Date
MINUTES OF THE SENATE COMMITTEE ON PUBLIC HEALTH AND WELFARE.
The meeting was called to order by Senator Jan Meyers at Chairperson
10 a.mxxxx on
All members were present except:
Senator Hayden, excused, and Senator Chaney
Committee staff present:
Emalene Correll, Legislative Research Department

January 17, 19

Approved ____

Conferees appearing before the committee:

Trudy Racine, Senior Auditor, Legislative Division of Post Audit

Others present: see attached list

Norman Furse, Revisor of Statutes Office

Trudy Racine, Senior Auditor, Legislative Division of Post Audit, stated that her report was the result of an interim committee study and was requested by the Committee on Special Care Services.

She distributed to the committee members a report entitled "Adult Care Home Costs in Kansas - Property Costs and Practices", which contained Comparisons of Average Daily Costs for Homes with Rate Effective Dates; a sample of an Expense Statement submitted by each Adult Care Home dealing with property related costs; examples of a Cost and Reimbursement Rate Report for a for-profit home; a chart showing classification of Intermediate Care Facilities; a report on Property Costs and Differences in Asset Costs, and Changes in Ownership and Lease Patterns. (Attachment #1).

Ms. Racine explained that when homes change providers, Reimbursement Rates increase, and referred to a graph showing that decreases in Asset Reimbursement can make selling an Adult Care Home desirable, and these sales cause abrupt increases in the Asset Reimbursement Rate. She cited three examples of Adult Care Home finances.

Due to lack of time, Senator Meyers asked Ms. Racine to return tomorrow and finish her report, and announced that Sylvia Hougland, Secretary, Department on Aging, who was scheduled for tomorrow, would give her report next week.

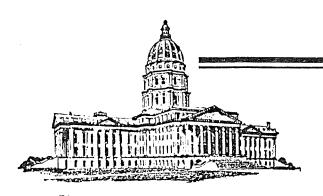

The meeting was adjourned.

ADULT CARE HOME COSTS IN KANSAS—PROPERTY COSTS AND PRACTICES

A Presentation to the Senate Public Health and Welfare Committee

January 16, 1984

Legislative Division of Post Audit Trudy Racine, Senior Auditor 296-3792

Atch. 1

Comparisons of Average Daily Costs For Homes With Rate Effective Dates on or Before June 1, 1983

Skilled Nursing	Profit	Non-Profit	<u>In-State</u>	Out-of-State
Number of Homes	22	8	25	5
Total Cost Administration Property Room and Board Health Care	\$29.80 3.65 6.08 7.17 12.90	\$38.73 4.07 7.65 9.09 17.92	\$31.83 3.63 6.12 7.85 14.24	\$33.92 4.41 8.39 6.87 14.25
Intermediate Care	[5			
intermediate Care	Profit	Non-Profit	<u>In-State</u>	Out-of-State
Number of Homes	152	Non-Profit	In-State 218	Out-of-State 42

NOTE: An asterisk between columns of numbers indicates that statistical tests show that the differences in average costs being compared are statistically significant. This means that there is little likelihood that the differences would have occurred as a result of chance.

This is part of a cost reimbursement rate report for a for-profit home with 65 beds. This is an example of a home with costs that exceed the reimbursement limit in property and administration cost centers.

Classification of Intermediate Care Facilities

		<u>Total</u>	Mortgage	Lease	Combination	<u>Neither</u>
(2-5) 6 09 may	For-Profit Homes:	156	92	30	14	20
	Non-chain	77	46	15	5	11
	Small chain	45	25	15	3	2
	Large chain	34	21	0	6	7
	Non-Profit Homes:	102	57	7	0	38
	Government	25	8	0	0	17
	Church	27	15	2.	0	10
	Other	50	34	5	0	11

Property Costs

The average property cost for the 258 intermediate care facilities was \$4.87 per patient day. This average cost was broken down as follows:

Asset Costs: includes taxes, interest on mortgage, rent or lease expense, amortization of improvements, and depreciation.	\$2.52
Operating Costs: includes utilities (except telephone), maintenance and repairs, and supplies for maintenance and repairs.	1.88
Property-related Personnel Costs: includes salaries and benefits for maintenance personnel, and owner compensation for maintenance related work.	.39
Other Costs: miscellaneous property-related items	8
Total	\$4.87

Differences in Asset Costs	
Average asset costs for all homes:	\$2.52
Average asset cost for-profit homes: Average asset cost for non-profit homes:	\$2.82 \$2.07

The differences between for-profit and non-profit homes lie mainly in three areas of asset costs:

- 1. Taxes. On the average, the for-profit asset cost for real estate and property taxes is \$.24 per patient day higher.
- 2. Costs for mortgages, leases, or rental agreements. Taken together, the for-profit asset costs for these items are \$.70 per patient day higher.
- 3. Depreciation. The average depreciation cost is \$.13 per patient day higher in non-profit homes than in for-profit homes, and this difference offsets somewhat the higher for-profit costs noted above.

Changes In Ownership and Lease Patterns

For 58 intermediate care facilities that reported a change in provider between March 1982 and November 1983:

1. There is a clear trend from in-State to out-of-State ownership.

	Before the change, here is the providers were classified		After the change, here is how the providers were classified	
	In-State, for-profit: In-State, non-profit	44 3	<pre>In-State, for-profit: In-State, non-profit:</pre>	19 1
Out-of-State, for-prof. Out-of-State, non-prof		8 3	Out-of-State, for-profit: Out-of-State, non-profit	36 2
2.	Chain ownership is growing	•

When Homes Change Providers, Reimbursement Rates Increase

1. Some Homes Can Raise Their Rates Immediately

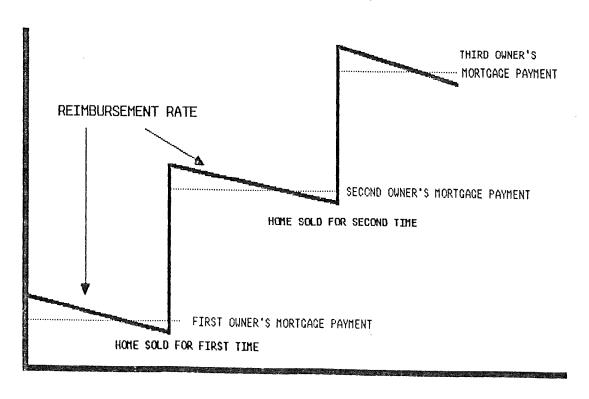

Property Costs:		
		Projected
	Before Sale:	After Sale:
Real Estate & Personal Prop. Taxes Interest Real Estate Mtg.	\$ 25,949 29,470	\$ 25,949 128,237
Rent or Lease Expense	3,973	-0-
Amort. Leasehold Improv. Depreciation Expense	-0- 35,704	-0- 62,657
Salaries	10,846	-0-
Employee Benefits	1,240	11,388
Owner's Compensation	-0-	-0-
Utilities except telephone	41,125	53,462
Maintenance & Repairs	26,532	30,777
Supplies	12,579	14,340
Other	2,057	2,344
Other	3,335	_0_
TOTAL	<u>\$192,810</u>	\$329,154
	\$5.36 Per Patient Day	\$9.25 Per Patient Day

- 2. Higher Property Costs Will Cause the Maximum Reimbursement Rate to Rise in Future Years.
- 3. Other Rates Besides Property Are Also Affected

Decreases in Asset Reimbursement Can Make Selling an Adult Care Home Desirable

These Sales Cause Abrupt Increases in the Asset Reimbursement Rate

ADULT CARE HOME FINANCES—SOME EXAMPLES

- This home was financed with \$700,000 in industrial revenue bonds in 1975. In 1977, when the auditors picked up the financial history, the two owners had an equity of about \$40,000. Between January 1977 and June 1982, the two owners reported a net loss for the facility of nearly \$70,000. In that five-year period, the two worked full-time and received compensation and dividends totaling about \$283,000. When they sold the home in June 1982, they received an apparent capital gain of nearly \$320,000.
- Example 2. This home was purchased in August 1978 for \$800,000, with an apparent initial investment by the owners of \$5,000. Between 1978 and April 1982, the owners reported a net income for the facility of \$60,000. One owner worked full time, the other three-fourths time, and they received a total of nearly \$180,000 in compensation and loans during the period. They sold the home for \$1.2 million, realizing nearly \$500,000 in capital gains.
- This facility had a net loss of nearly \$100,000 in 1982. In addition, an increase in outstanding debts and current liabilities resulted in a negative operations cash flow of \$121,000. The owner invested an additional \$116,500 which decreased the cash flow deficit to less than \$5,000 and finished the year with a negative equity of about \$142,000. This facility had an unusually low occupancy rate of 67 percent and a high percentage of Medicaid patients (69 percent), combined with costs which were above the maximum reimbursement rate in two cost centers and overall.
