The meeting was called to order at 12:35 p.m. by the Chairman, Senator Wint Winter, Jr..

Senate Bill 73 - An Act enacting the Kansas development finance authority act.

The Chairman reminded the Committee that there had been two days of testimony on SB 73, the bond authority bill. He stated that the bill generally received some support from the League of Kansas Municipalities and some support from business interests. He noted that there was a considerable degree of concern and opposition to the bill by some in the bond industry because it includes the ability to issue utility revenue bonds for cities. There was also opposition from some savings associations who expressed concerns about the ability in the bill to issue bonds for moderate income housing projects. The Department of Administration and conferees on the bill were asked to suggest changes, deletions or additions to the bill in an attempt to make it a workable piece of legislation. He said that the cities and bonding experts indicated that some changes to existing bond law were needed to enable them to have more flexibility in the finance of infrastructure improvements. He reminded the Committee that this is the subject of a recommendation in the Redwood-Krider report which has not been addressed in any other bill.

The Chairman said that some changes to  $\underline{SB}$  73 are contained in a balloon version of the bill and will be addressed later. Those changes include elimination of the ability to issue municipal utility revenue bonds, elimination of moderate income housing bonds and changes with respect to the governing body which is provided for in the bill. He noted that  $\underline{SB}$  73 and  $\underline{SB}$  407 are companion measures and are intended to address the lack of ability of local governments to finance infrastructure improvements and the lack of ability for some private venture businesses for fixed rate long term financing.

Senate Bill 407 - An Act concerning municipalities; relating to the issuance of bonds thereby and to the finances thereof.

Mike Heim, Legislative Research Department, explained each section of  $\underline{\sf SB}$  407 and answered questions by Committee members.

Jack Ranson, Ranson and Company in Wichita, spoke to the Committee in support of SB 407. He said that this bill is a reasonable companion to SB 73 in that SB 407 deals with the future financing of infrastructure problems at a local level as opposed to the state agency level which SB 73 addresses. He observed that local government problems have become more severe in recent years, the bond financing which they do has become extremely difficult, and considering the difficult problems which arise with the federal tax code, the local governments need the local the local governments need the Legislature's attention in authorizing and granting authority to them to do things at a local level which may address some of their problems. He said

that Section 7, the sales tax revenue bonds section, and Section 10, the strengthening and broadening of the interlocal agreement act section, are the key provisions in  $\underline{SB}$  407 as far as granting basic new authority to the municipalities. He told the Committee that he is a proponent of the bill, but is neutral on Section 8 which concerns Johnson County U.S.D. 512.

E. A. Mosher, Executive Director of the League of Kansas Municipalities, appeared in general support of  $\underline{SB}$   $\underline{407}$ . He said that he uses the word "general" because he is not familiar with the Johnson County school district provisions in the bill and because he has some amendments to the bill to suggest.

Mr. Mosher discussed Section 7 of <u>SB 407</u>, which contains the sales tax authorization. He said that he appears in strong support of the authority of cities and counties to issue bonds pledging the existing sales tax receipts. He emphasized that this bill does not authorize the levying of sales tax for that continues to be subject to a mandatory referendum. He said that the bill provides a legitimate method of financing certain kinds of public improvements and that local units ought to have that option.

Mr. Mosher suggested that all of New Section 9 be deleted from <u>SB 407</u> because this section, although it contains a good proposal, will probably "pick up a lot of flack" in the House and could therefore jeopardize passage of the remainder of the bill. He suggested making the provisions of New Section 9 a separate bill which could be introduced and held over for later consideration.

Mr. Mosher suggested amendments to New Section 10 of  $\underline{SB}$  407. He called the attention of the Committee to page 15 of  $\underline{SB}$  73, lines 529 to 532 which state "nothing in this act shall be construed to authorize the authority to issue or sell revenue bonds or use the proceeds thereof to purchase, condemn or otherwise acquire a utility plant or distribution system owned or operated by a regulated public utility". He suggested that these words be placed at the end of line 544 in  $\underline{SB}$  407. He said that this could head off the opposition to the bill from some of the private utilities.

Mr. Mosher suggested that it be made clear in  $\underline{\sf SB}$  407 that the joint entity bonds are not going to be used for some purpose not authorized by statute. He called the attention of the Committee to page 6 of the bill in line 204 and noted that the sales tax bonds would be restricted to use by a public agency which is authorized pursuant to the Constitution or laws of this state to issue bonds for "such purposes". He suggested inserting a similar provision on line 534 of  $\underline{\sf SB}$  407 to make it clear that you cannot issue joint entity bonds unless each of the participating agencies has its own separate legal authority to do that. He wants to make this a collective mechanism, not an authorizing mechanism in the bill.

Mr. Mosher emphasized that some mechanism must be found in Kansas for more collective action by local units. He said that Kansas needs more local area financing authority and noted that SB\_73 would accomplish this through a state bond pooling agency.

Mr. Mosher suggested that subsection (d) of New Section 10 on page 15 of  $\underline{SB}$  407 is unnecessary and should be stricken from the bill for it may cause some serious problems. He also suggested that  $\underline{SB}$  407 be amended in New Section 11, line 568, by adding the word "or" after the word "insurance".

Gerry Ray, Johnson County, told the Committee that she will get information concerning Section 8 of SB 407 which deals with U.S.D. #512 and will report later to the Committee.

A letter from Marla J. Howard, Public Affairs Officer for the City of Wichita, in support of  $\underline{SB}$  407 was given to the Committee. (Attachment I)

David Barclay, Department of Commerce, said that the issue being addressed in SB 73 and  $\underline{SB}$  407 is to try to lower the cost of financing both for the state for economic development projects, and for local levels of government for infrastructure. He observed that many states already have the kind of financing authority provided for in SB 73.

Senator Langworthy moved that SB 407 be amended by deleting Section 8 from the bill. Senator Feleciano seconded the motion. The motion carried.

The Chairman asked Mr. Mosher to supply the Committee with a written list of the League of Kansas Municipalities' suggested amendments to  $\underline{SB}$  407 at the Committee's next meeting.

Chairman Winter called the attention of the Committee to a balloon version of  $\underline{SB}$  73. (Attachment II) He noted that it contains some suggested amendments as follows: (1.) Deletes the portions of the bill which allowed the authority to issue utility revenue bonds; (2.) Deletes the ability of the authority to issue bonds for moderate income housing; and (3.) Addresses some of the concerns of the Secretary of Administration. The Chairman called on Allen Bell, Special Assistant to the Secretary of Administration, to explain and discuss this balloon version of  $\underline{SB}$  73. (See Attachment III for his statement.) Mr. Bell told the Committee that the Secretary of Administration approves of  $\underline{SB}$  73 in this balloon version.

The meeting was adjourned by the Chairman at 1:35 p.m..

RE: SB 407, MUNICIPAL BOND AUTHORITY

Mr. Chairman and Members of the Committee:

The City of Wichita wishes to express its support of Senate Bill 407 and I regret that I am unable to convey our support in person at today's hearing.

SB 407 provides for a number of changes in municipal bond authority and interlocal cooperation agreements that we feel will be of benefit to local communities. The bill broadens our reinvestment authority, broadens our refunding ability to include interest on bonds, authorizes local sales tax revenue bonds, and broadens the interlocal cooperation agreement statute to allow us to work with other local governments to issue bonds. The City of Wichita believes that these clarifications and the broadening of current law will allow municipalities to make more effective use of their bonding authority and ability to join with other communities for the benefit of all.

The City of Wichita respectfully requests your consideration and support of Senate Bill 407. Thank you.

# SENATE BILL No. 73

By Legislative Commission on Kansas Economic Development

1-23

0017 AN ACT enacting the Kansas development finance authority act; 0018 amending K.S.A. 1986 Supp. 9-1402 and repealing the existing 0019 section.

0020 Be it enacted by the Legislature of the State of Kansas:

New Section 1. The provisions of this act shall be cited as

0022 the Kansas development finance authority act.

New Sec. 2. The legislature hereby finds:-

0024 (a) That there exists severe economic instability in traditional 0025 national and international markets for goods and services pro-0026 duced by the citizens of the state of Kansas. This instability has 0027 caused serious economic distress among the citizens of our state 0028 and is manifest in the increasing number of business failures and 0029 bankruptcies, both personal and corporate, and the extraordinar-0030 ily high levels of unemployment in agricultural business and 0031 industrial enterprises and in the rapidly rising costs of housing 0032 for elderly persons and families of low and moderate income. 0033 The continued existence of these conditions is inimical to the 0034 public health, welfare, safety, morals and economic security of 0035 the citizens and inhabitants of the state.

0036 (b) That the economic well-being of the citizens of the state 0037 of Kansas will be enhanced by the providing of economical 0038 health care facilities for the benefit of its citizens, by the providing of educational facilities of every nature and kind, by the 0040 providing of capital improvement facilities for its citizens and by 0041 the providing of financial assistance to political subdivisions of 142 the state.

For these reasons, the legislature hereby finds that there exists in the state an immediate and urgent need to provide the means mad-methods for providing financing to

- 0046 (1) Complement Kansas' private financial institutions to bet-0047 ter verve their customers in ways which contribute to a 0048 strengthened and diversified Kansas economy and which do not 0049 compete with Kansas private financial institutions;
- 0050 (2) restore and revitalize existing agricultural business and 0051 industrial enterprises for the purpose of retaining existing em-0052 ployment within the state;
- 0053 (3) promote and develop the expansion of existing and the 0054 establishment of new agricultural business and industrial enter-0055 prises for the purpose of further alleviating unemployment 0056 within the state and for providing additional employment;
- 0057 (4) promote and larget resources of the state to further the 0058 development of export trade of Kansas products for the purpose 0059 of the economic development of the state and for providing 0060 additional employment therefrom;
- 0061 (5) eliminate the shortage of decent, safe, sanitary and af-0062 fordable residential housing for elderly persons and families of 0063 low and moderate income in the state;
- 0064 (6) assure the development of reliable, affordable, efficient 0065 and environmentally compatible sources of energy for all types 0066 of public and private consumption;
- 0067 (7) provide health care facilities for the citizens and inhabi-
- 0069 (8) provide capital improvement facilities for the benefit of 0070 the citizens and inhabitants of the state;
- 0071 (9) provide educational facilities for educational institutions 0072 within the state;
- 0073 (10) provide for short-term advance funding of the obliga-0074 tions of local governments throughout the state; and
- 0075 (11) assist minority business in obtaining loans or other 0076 means of financial assistance.
- Other land alleviation of unemployment in all phases of ost agricultural business and industrial enterprises, the elimination of the shortage of decent, safe, sanitary and affordable residential

one. Journal for elderly persons and persons of low and moderate income, for the development of reliable, affordable, efficient and environmentally compatible sources of energy for all types of public and private consumption, for health care facilities, for capital improvement facilities and for educational facilities for the benefit of educational institutions within the state.

The legislature finds that the public policies and responsibilities of the state as set forth in this section cannot be fully attained without the use of public financing and that such public financing can best be provided by the creation of a state development finance authority with comprehensive and extensive powers therein, which authority shall have the power to issue revenue bonds to provide financing for qualified agricultural business, industrial enterprises, residential housing, energy enterprises and facilities and health care, capital improvement and educational facilities, and that all of the foregoing are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned and granted.

TO: Senate Committee on Economic Development

FROM: Allen Bell, Special Assistant to the Secretary

SUBJECT: Statement on Senate Bill No. 73 Revision

The revised bill which you have before you represents the joint efforts of members of this committee, the Secretary of Administration and his staff, and the Revisor of Statutes to 1) simplify and streamline the structure and language of the original bill, 2) address the legitimate concerns raised in committee hearings by various groups, and 3) incorporate new provisions relating to the financing of state agency Aside from the removal of large portions of several sections which were judged to be removable without effecting the legislation, and the insertion of various amendments which had been proposed during hearings, the major changes reflected in the revised bill have to do with the structure and composition of the Authority's board of directors, and the way in which state agency projects are selected and approved for financing by the Authority.

> Senate Committee on Economic Development 4-1-87 attachment III

In its revised form, Senate Bill No. 73 creates a state finance authority with the power to issue bonds for the purpose of financing capital improvements for state agencies, and for the purpose of financing economic development projects in the private sector. It also creates a potential mechanism for future state involvement in providing improved access to capital markets for local political subdivisions, should the legislature determine a need to do so.

Providing access to capital markets where such access is presently nonexisting or seriously limited, is what this bill is all about. I agree with previous conferees that the access of political subdivisions in Kansas to capital markets is not seriously impaired. At the same time, I recognize that there are problems in capital formation for a class of economic enterprise whose debt capital needs are too small to justify the relatively fixed costs of traditional IRB financing and which cannot obtain any kind of long term fixed-rate financing from their local banks. New banking regulations and current economic conditions are making it increasingly difficult, especially in rural areas, for conventional lending institutions to meet the long term capital needs of small businesses. may be possible, through pooled bond financing and innovative credit enhancement techniques, to rectify this situation for those projects whose credit is fundamentally strong. Marginal projects will not be helped by this legislation.

For state agencies, the capital finance problem is an administrative rather than market-related problem. For a variety of reasons, the state has traditionally eschewed the use of debt financing of its capital improvements in favor of a "pay-as-you-go" philosophy, rather than "pay-as-you-use". State government has not paid sufficient attention to the manner in which it plans, manages, and finances improvements to its capital infrastructure. We have become reactive rather than proactive in this area. It is time for state government to take charge of this function and manage it.

The Department of Administration is already taking steps to improve this situation in those areas in which we have the authority to do so, for example in improving the quality of information regarding capital assets, in managing capital improvement funds, and in developing expertise in capital planning and finance. Senate Bill No. 73 provides state government with the opportunity to make real progress toward effective management of the capital improvement function by providing access to innovative financing alternatives, and by designating one agency of state government to coordinate the use of this resource.
