Craig Grant Testimony Before The House Transportation Committee Monday, April 3, 1989

Thank you, Mr. Chairman. I am Craig Grant and I represent the Kansas-NEA. I appreciate this opportunity to visit with the committee about SB 380.

I have never testified before this committee and do not profess to have any knowledge about highway construction or maintenance other than having travelled southeast Kansas enough to know something needs to be done for that area of the state. What I want to talk to you about are the concepts embodied in SB 380.

Kansas-NEA supports <u>SB 380</u> and its dedication of ½ of the sales tax increase to the financing of schools. We would not be supportive if the language was not in new sections six and seven which guarantees that the funding would be an enhancement rather than replacement dollars for that amount already allocated by the state. We all have long sought to get the state's share of financing up to the 50% level. We are at 43.8% this year. <u>SB 380</u>, hopefully with a growing amount of revenue each year, would approach the 49% level of funding—the highest level since the enactment of the school district equalization act.

A word or two about the allocation formula in new section five of the bill. Sending 75% of the funding through our SDEA formula and 25% on a per pupil basis will guarantee that all school districts will benefit from the increased revenue. There would be no "no aid" districts as we know them presently with this money. Assuming the revenue of ½ cent sales tax is \$47 million, \$11.75 million would be distributed on a per pupil basis providing

Craig Grant Testimony Before House Transportation, 4/3/89, page two

a grant of around \$30 per each pupil in the state. The remaining \$35.25 million would be distributed through the equalization formula which we will, hopefully, soon revise.

We have all reflected on the school district printouts for study which reflect the new valuations under reappraisal and classification. Although at first glance the actual mill levy numbers are not too scary, it is evident that shifts within districts will occur. Several school district people—people who know and understand school finance—have mentioned that the printout would look much better to all if another 40 to 50 million dollars were in the formula. The representatives from "no aid" districts also remind us not to overlook their needs. This proposal solves both problems and should allow for stability in the school funding during the next few years.

Presently, elementary and secondary schools receive about 39-40% of the state's general fund. This number fluctuates little from year to year.

Kansas-NEA welcomes the opportunity to receive 50% of a new income dedicated to enhance the regular funding of our schools.

Kansas-NEA supports the concepts embodied in <u>SB 380</u> and hopes that this committee, the entire legislature, and governor will agree with us. When our 800 teachers, school board members, and parents rallied March 20 in the snow, they indicated that it was time to "Support Our Schools." We are hoping this legislature will heed our call. Thank you for listening to the concerns of our members.

FROM:

State Department of Education and Legislative Research Department

SUBJECT:

1989 Senate Bill 380--Estimated State Aid

to Unified School Districts

The attached computer printout (L8947) provides the estimated ancillary state aid and basic state aid per pupil received by each unified school district during the 1989-90 school year. The printout is based upon 1989 House Bill 2085 as amended by the House Education Committee. It is estimated that the school districts will receive approximately \$47.1 million as a result of 1989 Senate Bill 380 during the 1989-90 school year.

Listed below is a column explanation of the printout.

COLUMN EXPLANATION

Column 1 - September 20, 1989, Estimated FTE enrollment

2 - 1989-90 Estimated ancillary state aid

3 - 1989-90 Estimated basic state aid per pupil

4 - 1989-90 Total state aid under Senate Bill 380 (Column 2 + 3)

STATEMENT

By The

KANSAS MOTOR CARRIERS ASSOCIATION

In strong support of Senate Bill 380 which provides funding for education and major support of local street and highway needs.

Presented to the House Transportation Committee, Rep. Rex Crowell, Chairman; Statehouse, Topeka, Monday, April 3, 1989.

MR. CHAIRMAN AND MEMBERS OF THE COMMITTEE:

I am Mary E. Turkington, Executive Director of the Kansas Motor Carriers Association with offices in Topeka. I appear here today along with Tom Whitaker, our Governmental Relations Director; on behalf of our 1,550 member-firms and the highway transportation industry.

We strongly support the Economic Lifelines program submitted initially to this committee on February 16, 1989. That program not only supported substantial tax increases for an urgently-needed comprehensive highway program for Kansas, but also supported additional monies for school aid represented by the quarter percent sales tax increase for education which has been introduced and passed by the Senate in Senate Bill 380.

Attach. 3

The Senate bill returns nearly all of the one-half percent increase in the sales tax to local units. School districts, on a per-pupil basis and through the equalization formula, would receive the benefit of the one-quarter percent revenue stream for education. Frankly, I sincerely believe that this Legislature will be grateful for that revenue to be available to fund schools next year and in the years to come.

All of us, including the business community, keep saying that education is so very important. I know all of us believe that it is. Senate Bill 380 affords us the opportunity to provide funding, other than present general fund revenues -- and increased property taxes -- to meet the needs of education. I hope you will think seriuosly about this opportunity.

In addition to returning money to local school districts,
Senate Bill 380 also returns almost all of the quarter percent
sales tax dollars for highway purposes to local city and county
units. I know the local units like this funding proposal. Only
25% of the quarter percent would go to the state highway fund.

Local units would continue to share 40.5% of the present fuel tax dollars, would receive 75% of the proposed quarter percent sales tax dollars under 380 and the state highway fund would retain all motor fuel tax revenues from the fuel tax increases proposed in House Bill 2014.

Mr. Chairman and members of the Committee, I believe we have an extraordinary opportunity to address two urgently needed funding needs and return most of the dollars right back home to the local level. It is a sound concept, we believe. We urge your support for Senate Bill 380.
