MINUTES OF THE House COM	MITTEE ONTaxation	
The meeting was called to order by Rep	presentative Keith Roe Chairperson	at
9:00 a.m.xpxxx. on January 22	, 19 <u>90</u> in room <u>519-S</u>	of the Capitol.

All members were present except:
Representative Spaniol, excused
Representative Charlton, absent
Representative Crowell, excused
Committee staff present:
Tom Severn, Research Department
Chris Courtwright, Research Department
Don Hayward, Revisor's Office
Lenore Olson, Committee Secretary

Conferees appearing before the committee:
Secretary of Revenue Ed Rolfs
Mark Burghart, General Counsel, Department of Revenue
John Luttjohann, Director, Division of Property Valuation

Chairman Roe directed the Committee to turn to HB 2621.

Mark Burghart, Department of Revenue, requested the Committee to amend HB 2621, to remove the estimated monthly prepayment for taxpayers with annual liabilities of \$32,000 or more; and to add that the taxpayers be informed as to the specific amount to be paid each month based on one-twenty-fourth of their prior year's liability. (Attachment 1)

A motion was made by Representative Smith, seconded by Representative Shore to amend HB2621 by adding the balloon requested by Mr. Burghart. The motion carried.

A motion was made by Representative Smith, seconded by Representative Adam to report HB 2621 as amended favorable for passage. The motion carried.

Secretary of Revenue Ed Rolfs reviewed a breakdown for Geary County of 1989 Actual Assessed Value and Tax Dollars. (Attachment 2)

The Secretary stated that presently they are trying to come up with a presentation format for the Committee and he wanted to know if this format is acceptable or if the Committee wanted any changes.

The Committee requested Secretary Rolfs to provide them with a breakdown for 1988 of various categories on machinery, inventories, equipment, and other personal property for each county.

John Luttjohann, Director, PVD, reviewed a Memorandum on Real Estate Preliminary Sales Ratio Study. Mr. Luttjohann stated that they have simplified this report from earlier versions and have added comparable figures from the 1988 sales ratio study where available. (Attachment 3)

The minutes of January 18, 1990, were approved.

The meeting adjourned at 10:00 a.m.

HOUSE BILL No. 2621

By Committee on Taxation

1-11

AN ACT amending the Kansas retailers' sales tax act; concerning the method and time of payment; creating a deposit requirement for certain taxpayers; amending K.S.A. 79-3607 and repealing the existing section.

Be it enacted by the Legislature of the State of Kansas:

Section 1. K.S.A. 79-3607 is hereby amended to read as follows: 79-3607. Retailers shall make returns to the director at the times prescribed by this section upon forms prescribed and furnished by the director stating: (1) The name and address of the retailer; (2) the total amount of gross sales of all tangible personal property and taxable services rendered by the retailer during the period for which the return is made; (3) the total amount received during the period for which the return is made on charge and time sales of tangible personal property made and taxable services rendered prior to the period for which the return is made; (4) deductions allowed by law from such total amount of gross sales and from total amount received during the period for which the return is made on such charge and time sales; (5) receipts during the period for which the return is made from the total amount of sales of tangible personal property and taxable services rendered during such period in the course of such business, after deductions allowed by law have been made; (6) receipts during the period for which the return is made from charge and time sales of tangible personal property made and taxable services rendered prior to such period in the course of such business, after deductions allowed by law have been made; (7) gross receipts during the period for which the return is made from sales of tangible personal property and taxable services rendered in the course of such business upon the basis of which the tax is imposed. The return shall include such other pertinent information as the director may require. In making such return, the retailer shall determine the market value of any consideration, other than money, received in connection with the sale of any tangible personal property in the course of the business and shall include such value in the return.

Such value shall be subject to review and revision by the director as hereinafter provided. Refunds made by the retailer during the period for which the return is made on account of tangible personal property returned to the retailer shall be allowed as a deduction under subdivision (4) of this section in case the retailer has theretofore included the receipts from such sale in a return made by such retailer and paid taxes therein imposed by this act. The retailer shall, at the time of making such return, pay to the director the amount of tax herein imposed, except as otherwise provided in this section. The director may extend the time for making returns and paying the tax required by this act for any period not to exceed 60 days under such rules and regulations as the secretary of revenue may prescribe. When the total tax for which any retailer is liable under this act, does not exceed the sum of \$80 in any calendar year, the retailer shall file an annual return on or before January 25 of the following year. When the total tax liability does not exceed \$1,600 in any calendar year, the retailer shall file returns quarterly on or before the 25th day of the month following the end of each calendar quarter. When the total tax liability exceeds \$1,600 in any calendar year, the retailer shall file a return for each month on or before the 25th day of the following month. When the total tax liability exceeds \$32,000 in any calendar year, the retailer shall, in addition to the monthly return and remittance, shall be required to pay a deposit equal to 1/24th of the retailer's total sales tax liability for the immediately preceding calendar year. Such deposit shall be paid monthly and shall accompany the return and remittance filed and paid for the preceding month. The amount of the deposit shall be determined by the director based upon the sales tax liability of the retailer for the immediately preceding calendar year or by estimate if the retailer has no record of prior sales. the sales tax liability for the first 15 days of each month to the director on or before the 25th day of that month. Any such payment shall accompany the return filed for the preceding month. A retailer will be considered to have complied with the requirements to pay the first 15 days' liability for any month if, on or before the 25th day of that month, the retailer paid 90% of the liability for that fifteenday period, or 50% of such retailer's liability in the immediate preceding calendar year for the same month as the month in which the fifteenday period occurs computed at the rate applicable in the month in which the fifteenday period occurs, and, in either ease, paid any underpayment with the payment required on or before the 25th day of the following month. Such retailers shall pay their sales tax liabilities for the

The amount of such deposit shall be credited against the sales tax liability due in the immediately succeeding month.

9 10 11

remainder of each such month at the time of filing the return for such month. Determinations of amounts of liability in a calendar year for purposes of determining filing requirements shall be made by the director upon the basis of amounts of liability by those retailers during the preceding calendar year or by estimates in cases of retailers having no previous sales tax histories. The director is hereby authorized to modify the filing schedule for any retailer when it is apparent that the original determination was inaccurate.

Sec. 2. K.S.A. 79-3607 is hereby repealed.

Sec. 3. This act shall take effect and be in force from and after its publication in the statute book.

MEMORANDUM

TO:

THE HONORABLE KEITH ROE, CHAIRMAN

HOUSE COMMITTEE ON TAXATION

FROM:

JOHN R. LUTTJOHANN

PROPERTY VALUATION DIRECTOR

DATE:

JANUARY 22, 1990

RE:

REAL ESTATE PRELIMINARY SALES RATIO STUDY

Thank you for the opportunity to appear today to discuss the 1989 Preliminary Sales Ratio Study.

Attached hereto is a report of certain items of data from the Interim 1989 study. It is our goal to provide data to the Legislature in as timely a manner as possible. Detailed analysis sheets for each county are available if you would like to review them.

We have simplified the report from earlier versions which you may have seen, and have added comparable figures from the 1988 sales ratio study where available.

Attachment 1 lists the Median Ratios and Coefficients of Deviation for Residential Property, ranked by Median Ratio. The ratio is the appraised value of the property divided by the sales price. A "perfect" ratio, would therefore, be 100.00, meaning that the property sold for exactly the same amount at which it was appraised. The median is a statistical measure of central tendency used to describe a group of individual ratios. The median is found by arranging the individual ratios in order of magnitude from highest to lowest, then selecting the middle ratio in the series. The median depends on the position of items in the distribution rather than their magnitude, therefore, influence is not given to unusually high or low ratios.

A median of greater than 100 would indicate that more parcels sold for less than their appraised value than sold for more than the appraised value. Conversely, if parcels consistently sold for an amount greater than their appraised valuations, the median ratio would be less than 100.

The other statistical measure shown is the Coefficient of Deviation. This measures the degree of variation of individual ratios in relationship to the median ratio for a group of properties sold. The Coefficient is the percentage by which the various individual sales ratios differ, on average, from the median ratio. In rough terms, if we are looking at a bell-shaped curve which shows the dispersion of sales ratios around the median, the

1/22/96 Attachment 3 wider the bell-shaped ve, the higher the Coefficient of De ion. In general, if the final ratio study, due to be completed by April 30, indicates a Coefficient of Deviation in excess of 20 for a particular sub-class of property, the Director of Property Valuation may order a reappraisal of the property in that particular sub-class.

There are a lot of counties listed here whose residential property reflects a Coefficient of Deviation in excess of 20, and that is a matter of concern. On analysis, you will note two items which mitigate that concern a great deal. First, if we compare the 1989 C.O.D. to the 1988, C.O.D., we see vast improvement. Secondly, the C.O.D. in excess of 20 tends to show up only in counties where there are relatively few sales. Obviously, it is more difficult both to appraise property, and to determine if sales figures are valid when there is not much activity in the market.

Similar charts are enclosed for Vacant Lots, attachment 2, and for the "All Other" class, attachment 3, generally referred to as Commercial Property.

We are currently engaged in follow-up activity, having formed audit teams to do on-site county compliance reviews, beginning with the counties which have higher than normal Coefficients of Deviation and Median Ratios. We have staffed these teams with personnel from our Appraisal staff as well as personnel from the Department of Revenue's Internal Audit staff. Two counties have already been visited. We will make every effort to assist the counties in taking any necessary corrective action.

Again, thank you for the opportunity to appear today, I would be happy to respond to questions which you may have now, or feel free to contact me once you've had a chance to review the material presented.
