MINUTES OF THE House C	OMMITTEE ONTaxati	on	
The meeting was called to order by _	Representative Keith	n Roe Chairperson	at
9:00 a.m./xxxx on March	12	, 19 <u>90</u> in room <u>519-S</u>	_ of the Capitol.
All members were present except: Representative Grotewiel,	absent		

Committee staff present:
Tom Severn, Research Department
Chris Courtwright, Research Department
Don Hayward, Revisor's Office
Lenore Olson, Committee Secretary

Conferees appearing before the committee:

James Braden, Speaker of the House
Ben Barrett, Associate Director, KLRD
Craig Grant, Kansas-National Education Association
Mary Ellen Conlee, Kansas Association for Small Business
Dee Likes, Kansas Livestock Association
Bob Corkins, Kansas Chamber of Commerce & Industry
Paul Fleener, Kansas Farm Bureau
Alan Alderson, Western Retail Implement & Hardware Association and the
Kansas Lumber Dealers Association
Chuck Stuart, United School Administrators of Kansas
Mary Ella Simon, League of Women Voters
Karen France, Kansas Association of Realtors
Doc Taylor, Kansans for Fair Taxation

Ben Barrett, Associate Director, KLRD, reviewed a Memorandum dated March 7, 1990, showing the estimated effect on each unified school district if the state increased the sales tax by one cent effective December 1, 1990. (Attachment 1)

Speaker James Braden testified in support of  $\underline{HCR}$  5055, stating that it is a proposal that the taxpayers can easily understand, and they are going to know when they vote yes on this, they are voting to roll back their property taxes, but are also voting to increase their sales tax.

Craig Grant, KNEA, testified in support of  $\underline{HCR}$  5055, stating that they believe this measure begins to take major steps in the right direction. (Attachment 2)

Mary Ellen Conlee, Kansas Association for Small Business, testified in support of  $\underline{\text{HCR 5055}}$ , stating that they support a l cent statewide increase in the sales tax for direct property tax relief for school districts. (Attachment 3)

Dee Likes, Kansas Livestock Association, testified in support of  $\underline{\text{HCR 5055}}$ , stating that they believe this measure is the best approach that has been proposed so far, and they believe that the tax roll back for schools would be of great benefit. (Attachment 4)

Bob Corkins, KCCI, testified in support of  $\underline{\text{HCR 5055}}$ , stating that its trade-off between sales and property taxes is the most workable and even-handed response to the adverse effects of reappraisal and classification. (Attachment 5)

## CONTINUATION SHEET

MINUTES OF THE _	House	COMMITTEE ON	<u> Taxation</u>	
room <u>519-S</u> , Stateho				1990

Paul Fleener, Kansas Farm Bureau, testified in support of  $\underline{\text{HCR 5055}}$ , stating that they continue to believe that there should be minimal reliance on the property tax for support of our elementary and secondary schools. (Attachment 6)

Alan Alderson, Topeka attorney, testified in support of  $\underline{HCR}$  5055, stating they they believe the replacement of the property tax to some feasible degree with a general statewide sales tax is the most equitable approach to the problem. (Attachment 7)

Chuck Stuart, United School Administrators of Kansas, testified in support of  $\underline{HCR}$  5055, but stated that they have some concerns with certain provisions of this resolution. (Attachment 8)

Mary Ellen Simon, League of Women Voters, testified in opposition to  $\underline{HCR}$  5055, stating that they do not believe it meets the standard of equity, adequacy, ease of administration, and consistency with state economic goals as standards for a state tax system. (Attachment 9)

Karen France, Kansas Association of Realtors, testified that they do not support or oppose the concepts which  $\underline{HCR}$  5055 proposes but believe that any attempt to reduce reliance on property taxes for the funding of schools should be backed up by a constitutional amendment which places permanent caps on property taxes. (Attachment 10)

Doc Taylor, Kansans for Fair Taxation, testified in support of  $\underline{\text{HCR 5055}}$ , stating that they feel this bill is a step in the right direction.

Chairman Roe concluded the hearing on HCR 5055.

The minutes of March 7, 1990, were approved.

The meeting adjourned at 10:25 a.m.

# Kar as State Department of Educa

n

# Kansas State Education Building

120 East 10th Street Topeka, Kansas 66612-1103

March 7, 1990

TO:

Representative James Braden

FROM:

Dale M. Dennis, Asst. Commissioner

Division of Financial Services and Operations

SUBJECT:

Property Tax Reduction Program

Sales Tax Effective Date--December 1, 1990

Attached is a computer printout (L9026) which shows the estimated effect on each unified school district if the state increased the sales tax by one cent effective December 1, 1990. The revenue from the sales tax increase would be deposited in the school districts' general fund for the purpose of reducing property tax.

The printout is based upon the assumption that all school districts would participate in the program and the general fund property tax rate would be lowered by 28.5 percent during the 1990-91 school year.

## COLUMN EXPLANATION

- Column 1 1989-90 General fund tax rate
  - 2 1990 Estimated general fund tax rate under current law (Governor's money)
  - 3 1989 Assessed valuation
  - 4 1990 Estimated general fund tax levy (dollars)
  - 5 Estimated property tax reduction for 1991 budget year
  - 6 Millage equivalency of Column 5
  - 7 1990 Estimated revised general fund tax rate

Testimony on HCR 5055 before the House Taxation Committee March 12, 1990 by

by
Craig Grant, Director of Governmental Relations
Kansas-National Education Association
on behalf of
Kansas-NEA
Kansas Association of School Boards
Wichita USD 259
Topeka USD 501

Mr. Chairman and members of the Committee, we appreciate the opportunity to appear before you on behalf of the above named organizations regarding HCR 5055. We believe that this measure begins to take major steps in the right direction in the discussions that have occurred during this legislative session on the issue of property tax relief.

House Concurrent Resolution 5055 addresses two major concepts we believe must be included in any relief measure. If equity is to be achieved, especially in school funding, then additional state resources will be needed. Raising the state sales tax is certainly an acceptable way of achieving those resources, in our view. We also believe those new resources should be distributed in a manner linked to the present property tax burden in each school district. This measure achieves both of those goals.

3/12/90 Ottoch ment 2 We have deep reservations, however, regarding the method used to achieve these goals in this measure. We do not believe that a constitutional amendment is the appropriate way to achieve a tax increase. It seems to us to be an evasive way to deal with a policy issue that has always been dealt with statutorily in the past and could easily be dealt with in the same manner now. Schools would be able to know as they begin their budget preparation what resources they would have to address their needs.

In addition, if the resources were known to be available before the end of this session, then we could more readily address the crucial issue before us of appropriate budget limits for the coming school year. That will be difficult, if not impossible, if school boards do not know until the outcome of an August election whether they will have new state resources or whether they must continue to rely on the property tax to meet the demands being placed on them.

We would urge the Committee to consider turning HCR 5055 into a bill and enacting this much needed relief in a statute to be effective July 1, 1990. We believe this would provide the property tax relief so many of you and us desire and also provide a base for funding public schools in the state of Kansas for both the short and long term. We appreciate the opportunity to express our views once again and I would be happy to answer any questions.

Association for Small Business

532 No. Broadway-Wichita, KS 67214 316 267-9984

#### HOUSE TAXATION COMMITTEE

Monday, March 12, 1990

Re: HCR 5055

Chairman Roe, members of the committee, I am Mary Ellen Conlee, representing the Kansas Association for Small Business.

In two previous appearances before this committee I have asked you to maintain the 1989 reappraisal and classification amendment. The elimination of the merchants' and manufacturers' inventory taxes and the reduction and stabilization of taxes on productive machinery and equipment have resulted in a growth environment for small manufacturing in Kansas. Changes in the component parts of the state's economic development plan would send a "no growth" message to basic industry in Kansas.

Although most of the Kansas Association for Small Business companies are satisfied with the current property tax mix, we do understand that some other small businesses which are not machinery and inventory intensive, are facing significant increases in property taxes for commercial buildings. Consequently, we support a 1 cent statewide increase in the sales tax for direct property tax relief for school districts.

While it has been argued that manufacturers would not pay the increased sales tax because of their exemptions for production machinery and equipment, such an argument fails to consider sales taxes such as those paid on business supplies, business vehicles and office furniture and equipment. In addition, each business owner and all employees spend earned income on taxable items.

\* \* \* \* \*

In conclusion: the Kansas Association for Small Business supports HCR 5055, a statewide increase in the sales tax for property tax relief through the school district component of each property tax bill.

## STATEMENT OF THE

KANSAS LIVESTOCK ASSOCIATION

TO THE HOUSE COMMITTEE ON ASSESSMENT AND TAXATION

REPRESENTATIVE KEITH ROE, CHAIRMAN

WITH RESPECT TO

HCR 5055

PRESENTED BY

DEE LIKES, EXECUTIVE VICE PRESIDENT

MARCH 12, 1990

KLA has appeared before this committee on many previous occasions during this session of the Kansas legislature to voice the major policy positions of our organization: 1) we oppose reopening the classification section of the constitution; 2) we oppose reimposition of the tax on livestock; and 3) we advocate less reliance on the property tax and more reliance on sales and income tax to fund local units of government and schools.

We believe this measure is the best approach that has been proposed so far, and we believe that the tax roll back for schools that it would accomplish would be of great benefit. Thank you.

KANSAS CHAMBER OF COMMERCE AND INDUSTRY
Testimony Before the

House Taxation Committee

bу

Bob Corkins Director of Taxation

Mr. Chairman and members of the Committee:

Thank you for the opportunity to speak with regard to HCR 5055. My name is Bob Corkins, director of taxation for the Kansas Chamber of Commerce and Industry, and I am here to voice our membership's support for this proposal. Its trade-off between sales and property taxes, we believe, is the most workable and even-handed response to the adverse effects or reappraisal and classification.

The Kansas Chamber of Commerce and Industry (KCCI) is a statewide organization dedicated to the promotion of economic growth and job creation within Kansas, and to the protection and support of the private competitive enterprise system.

KCCI is comprised of more than 3,000 businesses which includes 200 local and regional chambers of commerce and trade organizations which represent over 161,000 business men and women. The organization represents both large and small employers in Kansas, with 55% of KCCI's members having less than 25 employees, and 86% having less than 100 employees. KCCI receives no government funding.

The KCCI Board of Directors establishes policies through the work of hundreds of the organization's members who make up its various committees. These policies are the guiding principles of the organization and translate into views such as those expressed here.

3/12/90 Attackment 5 At the same time, this approach retains the positive changes brought about by these property tax reforms. It would encourage economic growth and tax fairness among businesses by keeping inventories exempt. It would continue to apply the same standards to all businesses, taxing them on the basis of their land, buildings and machinery regardless of the type of business conducted. The proposal would also keep promoting the modernization and upgrading of business machinery through a predictable and fair depreciation schedule.

The replacement revenues recommended here, too, are very acceptable to the KCCI membership. Though retailers would continue to perform an uncompensated collection service for the state, and businesses of all types would pay a higher sales tax rate themselves on finished goods, this method of taxation is still inherently superior to property taxes. Such an increase in rates would not cause a shift in the effective tax base now in place. Everybody pays sales taxes and everybody would benefit from lower property taxes. The property tax burden would not shift from one class of taxpayers to another under this proposal and the common problem of all property taxpayers — an excessive reliance on property taxes by local taxing districts — would be lessened.

KCCI's support for this measure, however, is not unequivocable. We would prefer that these steps be enacted legislatively since the subject of sales tax has historically been governed with flexibility by statute. Nevertheless, there are important political advantages to resolving the property tax issue in a single, simply worded proposition upon which the full voting public can voice its opinion.

With these considerations noted, KCCI endorses both the method and the objective of HCR 5055. Thank you for your consideration.

# **PUBLIC POLICY STATEMENT**

## HOUSE COMMITTEE ON TAXATION

RE: H.C.R. 5055 ... a proposition to amend the Constitution to provide for reduced reliance on the property tax and and increase in the state sales tax

March 12, 1990 Topeka, Kansas

Presented by:
Paul E. Fleener, Director
Public Affairs Division
Kansas Farm Bureau

## Mr. Chairman and Members of the Committee:

My name is Paul E. Fleener. I am the Director of Public Affairs for Kansas Farm Bureau. We appreciate the opportunity to bring thoughts and comments to your committee today concerning H.C.R. 5055. We are supportive of the concept and intent of this proposition.

We have policy positions on School Finance, and on State and Local Governmental Budgeting, Spending and Taxation which support the intent of H.C.R. 5055. We want to share some items from each of those policy positions, the full text of which you will find attached to our testimony.

In our School Finance resolution our members have said:

We support legislation to place increased reliance on the state sales tax for financing elementary and secondary education in order to reduce reliance on property taxes now levied for school finance.

Our policy is interpreted by our Board of Directors to mean that we can support the proposition before you today, if indeed you find this is the appropriate mechanism for bringing about the

Ottach ment b

intended result ... increasing the state sales tax and reducing the reliance on the property tax for funding elementary and secondary schools. Perhaps the same objective could be achieved by the writing of a law. I know you will hear that argument articulated fully. We believe you could, in fact, enact statutory language to increase the sales tax by one percent and dedicate those funds to unified school districts. We believe there is a safeguard in doing what is proposed by H.C.R. 5055. That safeguard is the constitutional language authorizing the Legislature to provide the sales tax revenue, and assuring within the Constitution that such revenues "shall be used solely to reduce the revenue that would otherwise be required to be produced from the levy of taxes upon tangible property be each unified school district."

So, yes, Mr. Chairman, and Members of the Committee, you could move in either direction ... a constitutional provision or a statute ... and we would be here voicing support. It is the objective, the reduced reliance on property taxes, which we applaud.

Our School Finance policy contains this language as well:

We continue to believe that there should be minimal reliance on the property tax for support of our elementary and secondary schools.

We have shared this message with education committees and with your committee when we have discussed local option income taxes, a mechanism we have also supported. We believe the income tax should be extended to unified school districts. Our policy position on that says:

6-2

We support legislation to create a school district income tax to be collected by the state from every resident individual and returned by the state to the school district of residence of the individual taxpayer.

Two other items we would share with you. They come from our State and Local Governmental Budgeting, Spending and Taxation policy position. Those two items say these things:

It is time in Kansas to write a basic tax policy of taxing people for services to people and taxing property for services to property.

We support additional funding of our elementary and secondary schools through a school district income tax and additional state aid.

We appreciate the opportunity you have provided us to make these comments concerning H.C.R. 5055. We applaud those who have prepared this language and provided this opportunity. We will support and applaud your Committee and the full Legislature if you can develop a consensus for this resolution or any other mechanism for reducing property taxes by 25 to 30 percent ... property taxes that would otherwise be required to fund elementary and secondary education.

Thank you for the opportunity to testify. We would be pleased to respond to questions.

## State and Local Governmental **Budgeting, Spending and Taxation**

It is time in Kansas to write a basic tax policy of taxing people for services to people and taxing property for services to property.

Expenditures by the State of Kansas and by local units of government in Kansas in any fiscal year should never exceed projected revenue receipts for that fiscal

Zero-based budgeting is essential to fiscal planning and should be required for all state agencies as well as all local units of government.

We support additional funding of our elementary and secondary schools through a school district income tax and additional state aid.

We support funding for the third year of the "Margin of Excellence" for higher education.

We believe some agricultural programs in Kansas have been sorely underfunded in the past. Two specific examples are the International Grains Program and the International Meats and Livestock Program which should receive increased appropriations.

The Agricultural Value Added Processing Center, created by legislation enacted in 1988, should receive full and adequate funding in the 1990 Legislative Session.

Plant Science, Phase II, at Kansas State University should move ahead on schedule.

It is important and essential to all Kansans that we continue our State Meat Inspection Program.

The Swine Technology Center, created but unfunded by the Legislature in 1988 should receive its needed appropriations in 1990.

An eradication program for pseudorabies, a potentially devastating disease to the Kansas swine industry, should have federal, state and producer support and funding. We support initiation of the pseudorabies eradication plan in Kansas and ask the Legislature to provide funding for the Kansas portion of the plan.

The State General Fund should have adequate balances or reserves.

#### School Finance

We believe the Kansas Legislature should develop a school finance formula to assist in the delivery of and funding for a "basic education" for every child enrolled in public schools in each unified school district in the state.

We continue to believe that there should be minimal reliance on the property tax for support of our elementary and secondary schools. As long as property is used as a measure of wealth, then intangible property should be a part of such measurement of wealth.

We support legislation to create a school district income tax to be collected by the state from every resident individual and returned by the state to the school district of residence of the individual taxpayer.

We will oppose the application or use of a local income or earnings tax by any other local unit of

government.

We support legislation to place increased reliance on the state sales tax for financing elementary and secondary education in order to reduce reliance on property taxes now levied for school finance.

State General Fund revenues should be enhanced for school finance purposes by increasing the rates of income and privilege taxes imposed on corporations, financial institutions, insurance companies, and nonresident individuals.

We believe that federally and state-mandated programs should be fully funded by the federal or state government, whichever mandates a given program.

We have opposed in the past, and we continue to oppose efforts to establish a statewide property tax levy.

6-4

## MEMORANDUM

TO:

House Committee on Taxation

FROM:

Alan F. Alderson, Attorney, Western Retail Implement

and Hardware Association and the Kansas Lumber

Dealers Association

DATE:

March 12, 1990

RE:

House Concurrent Resolution No. 5055

On behalf of the Kansas implement dealers, hardware dealers and lumber dealers, I have been asked to express appreciation for the opportunity to present the viewpoint of both associations with regard to House Concurrent Resolution No. 5055.

Both associations have spent a great deal of time and thought on the volumes of proposed legislation submitted to date in what we believe is an effort to replace the present reliance on property tax with other sources of revenue. We have reviewed HCR 5055 in the context of these efforts and, although other approaches have had some merit, we believe HCR 5055 is the best approach we have seen to date.

The members of the Kansas Lumber Dealers Association and the Western Retail Implement and Hardware Association urge you to support HCR 5055 in lieu of other solutions which have been submitted for your consideration. We believe the replacement of the property tax to some feasible degree with a general statewide sales tax is the most equitable approach to the problem, and treats all Kansans fairly and equitably.

Although each of the Associations I represent would not rule out other proposals for the enactment of a statewide general sales tax increase, they endorse the concept in HCR 5055 to the exclusion of other remedial property tax proposals introduced to date. We urge you to support this concept in preference to those others as well.

I would be glad to try to answer any questions you might have.

3/12/90 Attuchment 7

## HCR 5055

Testimony presented before the House Committee on Taxation by Charles L. "Chuck" Stuart, Legislative Liaison United School Administrators of Kansas

# March 12, 1990

Mister Chairman and members of the committee, I am Chuck Stuart representing United School Administrators of Kansas. We appreciate the opportunity today to speak in support of a measure designed to provide property tax relief for the people of Kansas. We applaud the author of this resolution for taking bold steps in addressing the problem.

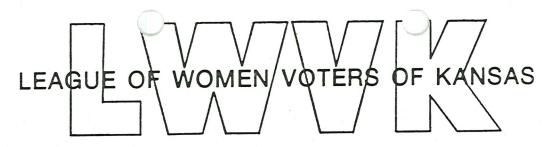

While we strongly support the concept of property tax relief through the distribution of funds through local school districts, we have some concerns about certain provisions of this resolution and about certain assumptions which seem to be surfacing in discussions of HCR 5055.

- 1. First of all we must emphasize that HCR 5055 is a property tax relief measure which does not address the need for added funding for Kansas schools. We as school leaders appreciate the current problems with the state's general fund, but we must point out to everyone that the revenues proposed in this resolution add not one new dollar to finance educational programs for Kansas children. We will address those needs as we have opportunity later in this session.
- 2. Secondly, we appreciate the use of a statewide revenue source in HCR 5055 rather than some of the local options discussed earlier in this session. Our organization has some concern that a single revenue source is being considered rather than a mix of tax sources which would be our preference. However, we will leave that matter to the wisdom of this legislature.
- 3. Finally, we would prefer property tax relief which was not a part of the Kansas constitution, but again we will trust the legislature to implement this concept (property tax relief through local school districts) via whatever vehicle is saleable.

Again, we appreciate this opportunity to be heard on HCR 5055. We believe it is a good idea worthy of positive action by this committee.

HCR5055/gwh

3/12/90 Attachment 8

March 12, 1990

To: House Assessment and Taxation Committee Rep. Keith Roe, Chairman

Thank you Mr. Chairman and members of the Committee.

I am Mary Ella Simon speaking for the League of Women Voters in opposition to HCR 5055.

State Finance has been of continuing interest and study for the League since 1936. In 1976, the League adopted standards of equity, adequacy, ease of administration, and consistency with state economic goals as standards for a state tax system.

We believe that HCR 5055 does not meet the standard of equity since the ability to pay should be the primary basis for distributing the tax burden. HCR 5055 would give tax relief to those most able to pay and penalize middle and low income families, particularly with the current tax on food in place.

We also oppose HCR 5055 on the grounds that it is not good policy to include percentage rates in the Constitution. Such items should be handled statutorily by the Legislature.

We would suggest that in this year of the Citizens Tax Revolt a Constitutional amendment to increase the state sales tax doesn't have a chance of rassing. As our duly elected representatives, legislators should accept the responsibility for revising the tax structure in the most equitable way.

We ask the committee to vote against HCR 5055. Thank you.

KAREN FRANCE, DIRECTOR, GOVERNMENTAL AFFAIRS

DATE:

MARCH 12, 1990

SUBJECT: HCR 5055

Thank you for this opportunity to testify. On behalf of the Kansas Association of REALTORS®, I appear today not to support or oppose the concepts which HCR 5055 proposes. We believe that, if the legislature presents a proposal such as this to the people to vote on, it is an indication of a true intent to reduce the reliance on property taxes for the funding of schools.

However, we strongly feel that any such attempt should be backed up by a constitutional amendment which places permanent caps on property taxes. Without a constitutional cap on property taxes, when budgets get lean in later years, the schools will not only utilize these new sales tax revenues, but will also go back to increasing property taxes to fund budgets and start the vicious cycle again.

We also feel that the cap should be extended to all property taxes and alternative means found to fund cities and counties, whether it is in the form of additional sales taxes such as this proposal or whether it by giving other options to the local units.

3/12/90 Attachment 10 The people want to be able to understand their property tax bill and they want to be able to know, with some amount of certainty, what their tax bill will be from year to year so they can budget appropriately.

While this bill provides for the means to fund school budgets in a way other than property tax, we believe it should be coupled with a constitutional cap on all property taxes, in order to give the real relief and reform that people are asking for.
