| The meeti | ing was carried to order by  |                | Chairperson         |                 |
| 9:00      | _ a.m./p <del>X.XX.</del> on | February 12    | , 19_9¹in room531-N | of the Capitol. |
| All membe | ers were present except:     |                |                     |                 |

All members were present except:

Senators Gaines and Steineger

#### Committee staff present:

Theresa Kiernan, Revisor of Statutes Mike Heim, Legislative Research Shirley Higgins, Committee Secretary

#### Conferees appearing before the committee:

Anne Smith, Kansas Association of Counties Senator Marge Petty Bev Bradley, Kansas Association of Counties Patricia Baker, Kansas Association of School Boards Ernie Mosher, League of Kansas Municipalities Willie Martin, Sedgwick County Intergovernmental Coordinator Patsy A. "Pat" McDonald, Shawnee County Clerk

Anne Smith, Kansas Association of Counties of which the Kansas Sheriff's Association is a member, requested the introduction of a bill which would add two positions to the Automotive Statewide Telecom and Records Access Board (ASTRA). One member would represent the Sheriff's association and the other would represent the Kansas Police Association. These two groups feel they should be included in dealing with the budget of this communication and data system across the State of Kansas since they do have an interest in this system.

Sen. Ehrlich made a motion to introduce the bill, Sen. Daniels seconded, and the motion carried.

SB 94 - Concerning municipalities; relating to payments in lieu of taxes.

Sen. Petty had requested the introduction of this bill and testified first. She distributed copies of data showing the percentage of tax exempt property statewide. (Attachments 1 and 2). The Chairman questioned the wording "every taxing subdivision of the state of Kansas" as to if this is too broad and would extend beyond just cities and counties as intended by Sen. Petty. Sen. Petty agreed that the wording is subject to discussion.

Bev Bradley, Kansas Association of Counties, testified in support of SB 94 for counties although her association does not have an adopted policy. (Attachment 3).

Patricia Baker, Kansas Association of School Boards, followed with further testimony in support of SB 94. (Attachment 4).

Ernie Mosher, League of Kansas Municipalities, testified that the League has taken the position of "no position." (Attachment 5). The Chairman asked Mr. Mosher for his opinion as to who would be in charge of enforcement. Mr. Mosher answered that there is nothing in the bill regarding this. concluded the hearing on SB 94.

SB 93 - Concerning taxing subdivisions; relating to the budgets thereof.

As the author of the bill, Sen. Petty again began testimony in support of it. She will submit written testimony later. She said the bill addresses

#### CONTINUATION SHEET

| MINUTES OF          | THEs          | ENATE CO       | OMMITTEE ON           | LOCAL      | GOVERNMENT | ,    |

| room <u>531-N</u> , | Statehouse, a | at <u>9:00</u> | a.m./ <b>ጛ</b> ፷፰. on | February 1 | .2         | 9 91 |

the number of taxing subdivisions in the state. Its purpose is to educate the public on the number of divisions and the impact on taxes and to encourage interlocal agreements. She clarified that the intent of the bill was not for public hearings but to require a report from taxing subdivisions.

Willie Martin, Sedgwick County Intergovernmental Coordinator, testified in support of <u>SB 93</u> as a means to educate the public. (Attachment 6).

Patsy "Pat" McDonald, Shawnee County Clerk, testified in opposition to <u>SB</u> 93 in its present form. (Attachment 7).

Bev Bradley, Kansas Association of Counties, testified in support of the concerns expressed by Pat McDonald. (Attachment 8).

Patricia Baker of the Association of School Boards noted that she is not opposed to the idea of providing total information to taxpayers as explained by Sen. Petty, but she does see technical problems with the notification process. (Attachment 9).

Ernie Mosher of the League of Municipalities stated that the League has no position on <u>SB 93.</u> (Attachment 10).

The Chairman informed the committee that he intends to invite Rep. Nancy Brown to appear before the committee to testify on  $\underline{\text{SB }94}$ .

The Chairman called the committee's attention to some information which he had received by certified mail from FEMA indicating the importance of the legislature acting on  $\frac{SB}{23}$  with regard to the National Flood Insurance Program. (Attachment 11).

The minutes of February 7 were approved.

The meeting was adjourned at 9:55 a.m.

LABOR. INDUSTRY AND SMALL BUSINESS
LOCAL GOVERNMENT

SENATE CHAMBER

### Testimony on SB94

- Local sources to fund costs of local government are heavily dependent on property tax. As the property tax base shrinks, remaining taxpayers pick up the difference.
- 2. Revenue sources at the local level are limited. Local units of government need to exercise all possible revenue options for local costs.
- 3. Local units currently have the authority to negotiate a faith agreement for a payment in-lieu-of taxes on tax exempt property. There is a question of whether local units can enforce or require such payments without a constitutional amendment.
- 4. SB94 requires cities to have a written policy on payment in-lieu-of taxes. This bill is within the same rule provision as it would allow a city to have the written policy of "no negotiation". The bill would, however, require that local government think through their policy on negotiation with the various categories of exempt property, from not-for-profits to IRB's. Such a process would assure that such a negotiation would not be an overlooked revenue option.

Assumptions: Regarding local taxing units, there is a need to expand local options and revenues, and increase efficiency and cost controls due to:

\*increased local costs and needs for services

\*25%-33% of local costs going to police & fire services

\*increased mandates without funding

\*reduced property tax base

\*reduction in Federal & State revenue (62% of state revenue is returned to local units)

Members Senate Local Government Committee

From:

Bev Bradley, Deputy Director Kansas Association of Counties

Re:

SB 94

The Kansas Association of Counties does not have a convention adopted policy on SB 94. We do however support any means of supplementing property taxes that support local governments. If having "every taxing subdivision of the state of Kansas establish its policy concerning payment in lieu of taxes" would accomplish this, then we would support such a move.

Testimony in Support of S.B. 94 before the Senate Local Government Committee on

by

Patricia E. Baker Associate Executive Director/General Counsel Kansas Association of School Boards

February 12, 1991

Thank you for the opportunity to appear before you on behalf of Kansas school boards. We support the concept of Senate Bill 94 and recommend its passage. We would like, however, to ask you to consider looking at this bill as an opportunity to clarify the law in regard to tax-exempt property.

School boards are responsible for levying and expending over half of the ad valorem taxes in Kansas. They do not have the power to exempt property from taxation and only "a right to be heard" when cities and counties abate taxes for economic development purposes.

Ostensibly, K.S.A. 12-147 gives school districts, along with other municipalities, the power to enter into contracts for payment in lieu of taxes for services. This is somewhat of an anomaly in that such contracts are normally entered into by those municipalities which grant the tax exemption. School districts are not asked to take part in those contractual agreements, but bear the brunt of the effect of tax abatement.

Senate L.G. 2-12-91 Attachment 4 We recommend that Senate Bill 94 be expanded to ensure that school districts are parties to the granting of tax exemptions by municipalities and that payment in lieu of taxes for educational services be specifically addressed. Thank you.

TO:

Senate Committee on Local Government

FROM:

E.A. Mosher, Executive Director, League of Kansas Municipalities

RE:

SB 94 -- Policy on Payments in Lieu of Taxes

DATE:

February 12, 1991

The League's Finance and Taxation Committee reviewed the provisions of Senate Bill No. 94 last Friday and took the position of "no position." The bill requires all local governing bodies to do that which they are now empowered to do--adopt a policy statement relating to payments by the owners of exempt property in lieu of taxes.

While the League tends to oppose bills which simply declare the existence of power cities now have under their home rule authority, we do not consider this a significant state intervention into local affairs, nor do we consider it a significant state mandate of the kind we typically oppose.

We are comfortable with its broad provisions, and interpret it to mean that a city governing body could, if it so desired, respond with a simple one-line ordinance, such as: "The Governing Body of the City of Kansa hereby encourages the owners of all tax exempt property within the city to enter into agreements with the city for the payment of services charges for such services as police or fire protection or to contribute payments in lieu of taxes."

From a state policy stand-point, SB 94 may have some advantages, in terms of (1) forcing local units to look at the general matter of tax exempt property, (2) encouraging the owners of exempt property to at least think about the possibility of making a public contribution to governments servicing the area, and (3) perhaps raising the public's concern about property within the governmental unit not directly contributing to that local unit's public treasury.

Finally, we would note that the bill applies to the governing body of every taxing subdivision--about 4,000 in Kansas. We doubt whether it is practical to require the adoption of a policy statement by many smaller local units, such as townships, cemetery districts and fire districts.

Willie Martin, Sedgwick County

Date:

February 12, 1991

Re:

Senate Bill 93 - Taxing Subdivisions Budgets

Mr. Chairman and members of the Committee, thank you for the opportunity to share our comments on Senate Bill 93. I am Willie Martin representing the Sedgwick County Board of Commissioners.

We are in support of the intent of this legislative proposal authored by Senator Petty. Don Wright, Sedgwick County Clerk, Ron Miller, Deputy County Clerk, Becky Bouska, Budget Manager and I met this past Friday to discus Senate Bill 93.

I am sure that most of you are aware of the limited number of individuals normally in attendance at public budget hearings. We can find no reason to assume that there would be attendance in larger numbers at a consolidated hearing. Sedgwick County has 107 separate taxing jurisdictions. I have provided you with a copy of our 1990 Ad Valorem Tax Levies, a form designed by the Sedgwick County Clerk's office. As you will note there are 20 Unified School Districts, 27 Townships, 20 First, Second, and Third Class Cities, the County, the State and numerous others.

Our understanding of at least a portion of the bill's intent is to encourage local government effort to better educate local taxpayers. A large percentage of taxpayers are not aware of the many and varied tax levying jurisdictions encompassed in each county.

> Senate L.G., 2-12-91 Attachment

We would like to suggest the following for consideration. As Sedgwick County has experienced, many property taxpayers are not aware of where their property taxes dollars are used. County publication of a list of all taxing jurisdictions (similar to the sheet before you), but limited to total budgets for the current and forthcoming years, mill levies for the current and forthcoming years, and perhaps an indication of whether the governing body of each jurisdiction is elected or appointed.

Please note the paragraphs of applicability under Table One and the explanation of Sewer District Levies against Real Estate Value just right of Table Seven. I would then like to draw your attention to Table Two which gives a summary of Total Levy for the City of Wichita. Additional explanation such as the ones cited and a requirement that each taxing jurisdiction provide a brief summary of major budget goals and changes for the forthcoming year would provide taxpayers with a consolidation of information that here to fore has been published separately but never in a consolidated manner.

An additional requirement which would insure a more effective process would be publication in the paper of widest circulation in the county. We felt this method would reach the largest number of taxpayers and be the most cost effective.

We hope that our suggestions merit the committee's consideration and would like to assure you of our assistance and cooperation in addressing this issue.

<sup>\*</sup> Applicable to all the following townships and cities: Erie, Greeley, and Ninnescah townships; and Cheney, Clearwater, Colwich, Derby, Mount Hope, Mulvane, Sedgwick, Valley Center, and Wichita cities. Applicable to portions of the following townships: Grand River, Morton, and Union townships.

## 1990 Ad Valorem Tax Levies

In dollars as they apply to each \$1,000, or fraction thereof, of the assessed valuation of Tangible Property — or in mills per \$1.00 of assessed valuation

Sedgwick County, Kansas

## Page One

Table One — STATE, COUNTY, COUNTY FIRE DISTRICT

Table Two — CITY OF WICHITA

Table Three — MISCELLANEOUS WICHITA CITY LEVIES
Table Four — SECOND AND THIRD CLASS CITY LEVIES

Table Five — SCHOOL DISTRICT LEVIES
Table Six — TOWNSHIP LEVIES

Table Seven — MISCELLANEOUS DISTRICT LEVIES

This rate sheet has been prepared by the Sedgwick County Clerk for the use of the county treasurer, the directors and budget officers of the various taxing subdivisions and other interested persons. The levies listed are the official 1990 ad valorem tax levies established by the county clerk, and include those levies certified by the state and the county clerks of adjacent counties for joint taxing subdivisions with territory in this county. The rates hereon are expressed in mills per dollar (or dollars per one thousand dollars of assessed valuation) to conform with the levy limitations imposed by Article 19, Chapter 79 of Kansas Statutes Annotated, as amended. To comply with the provisions of K.S.A. 1977 Supp. 79-2963 the decimal point in each of these levies should be moved one place to the left. Such levy then would be expressed at a rate in dollars or fraction thereof upon each one hundred dollars of assessed valuation.

Don Wright County Clerk

UNIFIED SCHOOL DISTRICTS

#### PLEASE NOTE:

**Table Five** 

\* In the designation of a territory in a unified school district which has been transferred from another unified school district the receiving district's number will bear the letter "T" followed by the year of the transfer on the county tax maps and in the taxing district's designation on the tax rolls. Such territory is subject to the receiving district's bond levy on bonds issued after such year. If the giving district had bonds outstanding at the date of transfer the giving district's code letter will follow the receiving district's number (and letter "T"), and the year of the transfer will follow the code letter. The territory transferred will be subject to the giving district's bond levy on bonds issued before such year. This liability is imposed by the provisions of K.S.A. 10-119.

Senator Don Montgomery, Chairman

From:

Patsy A. McDonald, Shawnee County Clerk and

President, Kansas County Clerks Association

Re:

Senate Bill No. 93

We would like to commend Senator Marge Petty for her encouragement of discussion between local governmental units and for promoting intergovernmental cooperation, as the more of this there is, the more the public benefits.

However we do feel that Senate Bill 93 is not clear as to its intent and is somewhat too late to accomplish any change in budgeted amounts. Questions we have on this bill are as follows:

(1) Line 15(b) states that within 10 days following the date of certifying its <u>levy</u>.....

Fact - Current law for all taxing districts now provides that a hearing be published, a public hearing held, the dollar amounts be approved for each fund and the budget be signed by the governing body. All this happens before budgets are filed with the County Clerk. The County Clerk reviews each budget and then sets the levy, based on a final updated valuation.

Once budgets are filed with the County Clerk, the amount of ad valorem taxes cannot be changed unless the levy exceeds the legal limit. The district could not just decide to change the budget unless they re-published and held a new public hearing.

(2) Line 18 - What constitutes a change in a budget:

Fact - Nearly every budget changes. Budgets go up or down, or amounts between funds change from the prior year.

Senate L.G, 2-12-91 Attachment The Senate Local Government Committee Senator Don Montgomery, Chairman Re: Senate Bill No. 93 February 11, 1991 Page Two

(3) It will be extremely difficult in most counties to schedule a hearing between all taxing districts. We currently have about sixty taxing subdivisions with the ability to levy taxes. This agenda would be quite lengthy - even several hours. Many counties have eighty, ninety or more taxing districts.

In summary, while we concur with the intent of this bill, we find that the time frame is not practical. Therefore, we are in opposition to Senate Bill No. 93 as it now appears.

Sincerely,

Patsy A. McDonald Shawnee County Clerk President, Kansas County Clerks Association

Kansas Association of Counties

Re:

SB 93

The Kansas Association of Counties does not have a convention adopted position on this issue. We did not anticipate a bill in this form. We do, however, support the concerns expressed by the County Clerk's Association as stated by Patsy McDonald, Shawnee County Clerk.

I understand the motivation behind this bill is intergovernmental cooperation and a reduction in the number of taxing districts at the local level. These are worthwhile goals, but we believe there may be better ways of accomplishing them. As many of you know my experience is in Douglas County. The governing boards of the county, city, and school district 497 met on a regular basis and at one point, purchased a main frame computer to be used by all three units. This of course was before VIPS and CAMA.

As outlined in SB 93 we believe a meeting would be poorly attended by the public, just as budget hearings are now. It would also be a very long process since almost every budget line item changes annually.

Testimony on S.B. 93
before the
Senate Committee on Local Government

by

Patricia E. Baker Associate Executive Director/General Counsel Kansas Association of School Boards

February 12, 1991

Mr. Chairman, Committee members, I appear before you on behalf of Kansas school boards in opposition to S.B. 93.

Every school district in Kansas is required to certify its budget to the county clerk on or before August 25 each year. Prior to that certification, K.S.A. 79-2929 requires notice and a public hearing on the budget. The purpose of the hearing is to allow taxpayers to make and receive answers to objections on the budget. The statute requires at least ten days notice of the hearing. The notice must include the proposed budget itself.

Senate Bill 93 requires an additional hearing, AFTER budget adoption for all taxing subdivisions. For school districts, any attempt to <u>amend</u> its budget after this second hearing would require a <u>third</u> hearing under K.S.A. 79-2929a, or if the amendment was to increase the budget, an order from the State Board of Tax Appeals.

If the purpose of S.B. 93 is to increase taxpayer awareness and opportunity for input, it would seem to be more beneficial to encourage citizens to take advantage of the hearing opportunity <u>prior</u> to

Senate L.G. 2-12-91 Attachment 9 adoption of the budget on which the tax levy will be made. A mass meeting after the fact would not seem to be productive.

I would also point out that appearance at such a hearing in more than one county would affect 201 school districts. This within a relatively short time frame.

School boards encourage interested citizens to have input into the budget and resulting tax levies by appearing at a budget hearing in August. It is feared that S.B. 93 will dilute this method and substitute a futile process after the fact.

Thank you for your attention.

Senate Committee on Local Government

FROM:

E.A. Mosher, Executive Director, League of Kansas Municipalities

RE:

SB 93--Annual Meeting on Local Budgets

DATE:

February 12, 1991

The League's Finance and Taxation Committee last Friday reviewed the provisions of Senate Bill No. 93, and took the position of "no position". We have no particular objection to a requirement that the representatives of cities and other taxing units participate annually in such a meeting. However, some members of our policy committee question whether such a meeting would be practical and workable.

As noted on the attached table, the number of participants making presentations at this meeting would vary from a minimum of about a dozen in Grant County to up to about 100 in Sedgwick County. Other members of our policy committee raised a question as to whether scheduling a meeting <u>after</u> budgets have been adopted would disappoint those that attend since it is too late to make changes.

We understand that one of the purposes of the sponsor of the bill, Senator Petty, is to provide some mechanism so that the general public becomes aware of the large number of governmental taxing units we have in Kansas--about 4,000. Our committee briefly explored other ways this information might be more readily available. One suggestion was that counties be required to annually publish in their official paper the annual county tax levy sheet, now published in a few counties. While we are not convinced that very many people read this kind of information, that number would certainly be larger than those that attend a countywide public meeting.

Secondly, it was suggested that the county clerk might be required to annually publish the total budgets of every taxing unit within the county. This may cause some confusion, since some people do not know all the governmental units in which they live or own property. Accumulating the budgets of all governmental units within the county, and publishing the proposed total expenditures, would not be very expensive. It could also cause some confusion for those who attempt to make comparisons, particularly as to budgets which include expenditures for utilities and other enterprise activities, but would clearly let the public know we have a lot of governments in Kansas.

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

The Honorable Don Montgomery State Senator Special Committee on Local Government 1218 Main Sabetha, Kansas 66534

Dear Senator Montgomery:

Enclosed is a copy of the letter sent to Governor Finney of Kansas regarding the status of the agricultural exemption issue. A letter dated September 28, 1990 (copy attached) was sent to former Governor Hayden, the Federal Emergency Management Agency (FEMA) requesting that the Kansas State Attorney General submit a legal opinion on whether there are provisions in Kansas statutes, which preclude Kansas counties from regulating any development within designated flood hazard areas.

Governor Hayden's office has submitted a draft of revised legislation to address the deficient language regarding the regulation of all agricultural development in the 100-year floodplain. In a letter from the Region VII Director, Richard Mellinger to Jack Parry of Governor Finney's Transition Team Office, dated December 17, 1990, several concerns of FEMA's Office of General Counsel were provided regarding various provisions of the legislation. Since that letter, there have been discussions and correspondence between the regional office and the Governor's Office regarding the agricultural exemption issue.

In order for the 40 counties to fully comply with the minimum requirements of the National Flood Insurance Program (NFIP), legislative action must be taken prior to April 14, 1991, the close of the 1991 Kansas State Legislative session.

Unless legislative action is taken prior to the end of the 1991 legislative session to revise the current state legislation to meet NFIP regulations, FEMA will initiate procedures for suspension from the NFIP after April 14, 1991. The consequences of suspension were set forth in the September 28th letter to Governor Hayden. To reiterate, failure to take the necessary actions to amend the state statutes would jeopardize the eligibility of the unincorporated areas of the forty counties for flood insurance under the NFIP and, as a result, their eligibility for certain Federal Disaster assistance.

There are nearly 772 existing flood insurance policies within these communities. These policies, which have \$34,249,900 in coverage, would expire at the end of their terms and no new policies could be purchased, if the forty counties were suspended from the NFIP.

It is our expectation that the Kansas State Legislature will take the necessary action during the 1991 legislative session to provide these communities with the enabling authorities required to continue their participation in the NFIP. We look forward to working with you to provide assistance in resolving the agricultural exemption issue.

If you should have any questions regarding this letter, please contact Mr. Richard Mellinger, Regional Director of the Region VII office at (816) 283-7060 or myself at (202) 646-2781.

Sincerely,

C.M. "Bud" Schauerte, Administrator Federal Insurance Administration

Enclosure

## <u>CERTIFIED MAIL</u> RETURN RECEIPT REQUESTED

The Honorable Joan Finney Governor of Kansas Topeka, Kansas 66612

Dear Governor Finney:

In a September 28, 1990 letter, the Federal Emergency Management Agency (FEMA) notified former Governor Hayden of issues affecting the ability of forty Kansas counties to fully comply with the National Flood Insurance Program (NFIP) regulations. These counties do not currently have the authority necessary to regulate all agricultural uses in flood hazard areas. Enclosed is a copy of that letter. This is to inform you that FEMA has reviewed the draft of the Kansas state legislation forwarded by Richard D. Kready, Chief of Staff to former Governor Hayden's office. We are pleased that your State has taken the initiative to resolve deficient language in the Kansas state statutes. However, there are several concerns outlined in a December 17, 1990 letter (copy attached) from S. R. Mellinger, Regional Director of the Region VII office.

As stated in our September 28, 1990 letter, failure by the State to take the necessary action to amend its statutes would jeopardize the eligibility of the counties for flood insurance under the NFIP and, as a result, their eligibility for certain Federal disaster assistance. We are statutorily obligated to inform you that unless corrective action is taken to revise the current state legislation to meet NFIP regulations prior to April 14, 1991, the last day of the Kansas State 1991 legislative session, procedures for suspension of the forty counties from the NFIP will be initiated after that date. This means that the forty counties would each receive a notice that they would be suspended from the NFIP, at the end of a 180-day period, in accordance with procedures under 44 CFR, Section 59.24(a) of the NFIP regulations.

The consequences of suspension from the NFIP for the unincorporated counties would be twofold. First, there are nearly 772 existing flood insurance policies within these communities. These policies, which represent \$34,249,900 in

coverage, would expire at the end of their terms and no new policies could be purchased. Second, suspended communities are also subject to the provision of Section 202 of Public Law 93-234, the Flood Disaster Protection Act of 1973, as amended. Section prohibits Federal agencies and officers from approving any form of loan, grant, guaranty, insurance payment, rebate, subsidy, disaster assistance loan or grant (in connection with a flood), or any other form of direct Federal assistance for acquisition or construction purposes within special flood hazard areas of suspended communities. Included in this prohibition, for example, is the making of mortgage loans guaranteed by the Department of Veterans Affairs or insured by the Federal Housing Administration. Approval of mortgage loans, secured by homes or farm buildings, by the Farmers Home Administration, Department of Agriculture, is similarly prohibited. Conventional loans from Federally insured or regulated lending institutions would be available at the discretion of the lenders.

We are greatly concerned that all Kansas citizens residing in flood hazard areas continue to have access to flood insurance. Because flood insurance significantly alleviates the personal and community economic burdens accompanying flood disasters, we would be pleased to assist your office in citizen outreach efforts to promote the importance of purchasing flood insurance. Do not hesitate to call me, if I can be of assistance.

We will continue to work with your staff and other Kansas officials to resolve the agricultural exemption issue during the current session of the Kansas Legislature. If you or your staff should have any questions regarding this letter, please contact Mr. Richard Mellinger, Regional Director of the Region VII office at (816) 283-7060 or myself at (202) 646-2781.

Sincemely,

C. M. "Bud" Schauerte, Administrator Federal Insurance Administration
