MINUTES OF THE HOUSE COMMITTEE ON EDUCATION.

The meeting was called to order by Chairman Bill Mason at 3:30 p.m. on February 7, 1996 in Room 519-S of the Capitol.

All members were present except:

Committee staff present: Ben Barrett, Legislative Research Department

Avis Swartzman, Revisor of Statutes Dale Dennis, Department of Education Beverly Renner, Committee Secretary

Conferees appearing before the committee: Representative Deena Horst

Dr. Gary Norris, Superintendent of Schools-USD 305, Salina Karl Peterjohn, Executive Director-Kansas Taxpayers Network

Mark Tallman-Kansas Association of School Boards Gerry Henderson-United School Administrators of Kansas

Others attending: See attached list

Chairman Mason opened the hearing on HB 2352-concerning school district finance, local option budgets, retailers' sales tax, income tax.

Representative Horst spoke as a proponents for **HB** 2352 (<u>Attachment 1</u>). This bill gives school districts the option of selecting the type of tax acceptable to local patrons to fund the Local Option Budget. If an income or sales tax is selected by the district, voters must approve it through the normal election process. Flexibility is allowed up to a percentage of 1% sales tax and the income taxation option is fixed at 5%, or any increment of 5%.

Dr. Gary Norris, Superintendent of Salina Schools appeared as a proponent for **HB 2352** (<u>Attachment 2</u>). Dr. Norris presented figures reflecting Salina school district's position financially to the other districts in Kansas. Salina patrons are reluctant to approve any increase in property taxes after bad experiences with current reappraisals. This bill would give a selling point to fund education without attaching personal property.

Chairman Mason closed proponent testimony on HB 2352 and opened opponent testimony.

Karl Peterjohn, Kansas Taxpayers Network spoke in opposition to **HB 2352** (<u>Attachment 3</u>). His organization stands in opposition to any legislation regarding local income tax proposals.

Chairman Mason closed opponent testimony on HB 2352 and opened the hearing for comments.

Mark Tallman, Kansas Association of School Boards stated the position taken by his organization on **HB 2352** (<u>Attachment 4</u>). These include practical concerns introduced with school boundaries crossing county lines and self identification of districts for tax purposes. District wealth should be recalculated if local option sales and income taxes are instituted.

Gerry Henderson, United School Administrators of Kansas offered comments on **HB 2352**(<u>Attachment 5</u>). He stated concerns that the Local Option Budget's purpose of allowing districts spending in excess of Base State Aid Per Pupil the ability to maintain their spending level and the flexibility of LOB at the local district level might be lost in those areas where funding is difficult.

Chairman Mason closed the hearing on **HB** 2352.

The floor was opened for action on HB 2668 - concerning state educational institutions admission

CONTINUATION SHEET

MINUTES OF THE HOUSE COMMITTEE ON EDUCATION, Room 519-S Statehouse, at 3:30 p.m. on February 7, 1996.

requirements.

Representative Tanner moved to report HB 2668 favorable for passage and was seconded by Representative Tomlinson.

Representative O'Connor offered a substitution motion to amend on page 3 line 15 to strike "but need not be limited to". Representative Ballou seconded the substitute motion.

Representative O'Connor modified the motion to limit this paragraph to "The board of regents prescribe a precollege curriculum", strike the remainder of paragraph (7) (b).

After discussion, Representative O'Connor submitted a rewrite from Ben Barrett stating the board of regents may prescribe a precollege curriculum which shall consist of ...-Representative O'Connor moved for a substitute amendment and Representative Ballou seconded. Motion failed.

Representative Wells made a motion to amend to delete page 2 lines 14-34. Seconded by Representative Shore.

Representative Petty moved to call the question. The vote was 11 members in favor; 7 opposed. Motion carried.

Representative O'Connor moved to strike lines 15 thru 20 from page 3. Representative Tomlinson seconded the motion.

Representative Swenson moved a substitute motion to lower ACT scores from 23 to 21. Representative Toelkes seconded.

Representative Petty moved to call the question. Motion failed.

Representative Larkin moved to substitute to strike the enacting clause-to pass out-be not passed- with a second from Representative Pettey. Motion failed; division-7 for, 10 opposed bringing the committee back to Representative O'Connor's motion.

Representative Franklin moved to change ACT scores from 23 to 22. Seconded by Representative Swenson. Nine voted in favor and 9 against; Chairman voted in favor. Motion carried.

Representative O'Connor restated her motion with a second by Representative Ballou. Motion failed: division of 8 for and 11 against.

Representative Powell moved the bill be passed as amended. Representative Morris seconded. Motion failed; 9 for , 10 opposed.

The meeting adjourned at 5:37 p.m.

The next meeting is scheduled for February 8, 1996.

Tax Options For Financing the Local Option Budget - HB 2352

February 7, 1996

Chairman Mason and members of the House Education Committee:

HB 2352 gives school districts authorization to select the type of tax which will be most palatable to the district patrons when opting to use the Local Option Budget. Several school districts are afraid to use this option because of the burden attached to the increase of property taxes. This bill will open up the local option budget option to many districts in Kansas who currently don't use it.

Some key elements of this bill include the following:

- The school district retains the option of income through property taxation. Under this option, the current law applies.
- If the district selects income or sales tax as its income option, they must get the approval of the voters through the normal election process.
- The bill allows local flexibility by allowing the altering of the percentage of sales tax up to a total sales tax of 1%.
- The laws governing the collection of sales tax will remain as they currently are. The board is required to utilize the state department of revenue to enforce and collect the tax.
- The income taxation option shall be fixed at 5% or any increment of 5%. The tax will apply to those years following the levy being authorized. The state department of revenue shall administer, collect and enforce this tax.
- The state treasurer shall make distributions of collected sales tax on a quarterly basis to the treasurer of the school district. The treasurer will also distribute to the district, on May 1 and August 1 of each

House Education 2/7/96 Attachment 1 year, monies deposited into a school district income fund.

• Revenues received from a tax levy authorized by this act are to be limited so the revenues are not in excess of the amount necessary to fund the local option budget of the district.

The idea for this bill generated as I talked with people in my district who found it unbelievable that Salina could approve use of the sales tax levy to build a jail and to fund capital improvements at Kansas State University-Salina, but K-12 schools couldn't fund local option budgets in the same manner. These constituents felt that the local option budget would be accepted more easily if applied in this manner.

Other states often use a mix of locally collected taxes to fund K-12 education. For example, Louisiana, Kentucky, Pennsylvania, and South Dakota are funded with a mix of at least 2 types of revenue. Some school districts in Iowa and Ohio use local income taxes. In other states, schools are dependent upon other governmental entities, and therefore receive revenue collected from non-property sources. It is time that Kansas citizens are allowed this same option.

I am certain you are aware of the fact that Kansas cities and counties do have the authority to levy a sales tax when granted by referendum vote. They may levy up to 2% on each item. These levies include certain restrictions on their usage. This bill respects these current laws, and optimizes themfor Kansas schools.

The current climate among taxpayers is certainly not favorable when consideration is given to the adoption of local option budgets which are funded solely by property taxes. Many districts have experienced great difficulty when attempting to pass LOB's. It is apparent that as time goes on, fewer districts will be able to take advantage of this means to supplement their budgets.

Given the budget constraints the state is experiencing, as well as the continued necessity to put on hold the original proposed incremental Base Aid Per Pupil increases coupled with the subsequent elimination of the LOB, I believe the time has come for the state to give Kansas citizens the opportunity to choose the manner in which they want to supplement the state funding of their schools.

Thank you for the opportunity to appear before you regarding this issue. I urge your careful consideration of HB 2352 on behalf of the citizens of the state of Kansas.

Rep. Deena Horst

House Education 2/7/96 Attachment 2

STUDENT NEEDS

U.S.D. 305 LEGISLATIVE POSITIONS

The Salina Public Schools intends to be responsive to our citizens and customers. The Board of Education willingly accepts the challenge of providing a quality education to the learners in Salina. With that in mind we appeal to the Kansas legislature to partner with us in that venture. To keep our commitment we need to:

- Maintain reasonable class sizes
- Retain and attract quality employees
- Implement increased graduation requirements
- Facilitate transition from school to career for our students
- Insure that all students have an opportunity for success after high school
- Increase our graduation rate
- Comply with state and federal legislative mandates

TOTALS:

U.S.D. 305 LEGISLATIVE POSITIONS

The Salina Public Schools intends to be responsive to our citizens and customers. The Board of Education willingly accepts the challenge of providing a quality education to the learners in Salina. With that in mind we appeal to the Kansas legislature to partner with us in that venture. To keep our commitment we need to:

- Maintain reasonable class sizes
- Retain and attract quality employees
- Implement increased graduation requirements
- Facilitate transition from school to career for our students
- •Insure that all students have an opportunity for success after high school
- •Increase our graduation rate
- Comply with state and federal legislative mandates

Hence we propose the following legislative positions to support our efforts:

- 1. The legislature should fund the current school finance formula with provisions for increased costs of educating children.
 - a. Increase correlation weighting by eliminating the four-year phase in schedule.
 - b. Increase Base State Aid Per Pupil to a least \$3,800 with a statutory index for inflation.
 - c. Provide that, for the purpose of computing maximum allowable budget, a school district be allowed to use the previous year's FTE enrollment or the current year's FTE enrollment, whichever is greater.
- 2. As the base state aid per pupil has not kept pace with inflation the legislature should provide that a local board of education may establish or increase the Local Option Budget up to the maximum of 10 percent with no protest petition (15 to 25% LOB would be subject to protect petition).
- 3. Because of increased demands of service (i.e., reductions of state services, frequency and severity of student needs) the legislature should provide funding for 100 percent of the excess costs of special education.
- 4. The legislature should provide for a balanced mix of the three major revenue sources -- property tax, sales tax and income tax -- used to support Kansas public schools.
- 5. The legislature should increase the weighting factor for at-risk students. (Kansas At Risk students are currently funded lowest in the nation.)

- 6. The legislature should ensure that area vocational technical schools continue to provide valuable education opportunities to the people of Kansas and to ensure that a well-trained labor pool is available to existing and new industries and businesses, the legislature should provide \$6 million funding for AVTS capital outlay, and a 3 percent increase in postsecondary aid.
- 7. Because of several recent court decisions since 1991, the legislature should restore school board authority to removed professional employees for good cause, with judicial appeal. A hearing panel should be utilized to determine whether the board acted in good faith.
- 8. The legislature should provide a funding formula that allows the students in the Salina Public Schools to have access to similar class sizes, technology and facilities as any other Kansas students. Currently, if we were to divide the Salina Public School District into eleven smaller school district, contiguous with elementary boundaries the state funding formula would generate approximately \$15,000,000 additional to educate Salina students. Short of doing that, several possibilities exist to accomplish that end:

Option One: Revise current capital outlay provisions by allowing a minimum dollar per pupil to be funded by local ad valorem levy instead of 4 mills for 5 years.

Option Two: Allow the school district by a majority vote to levy a half cent sales tax for technology (similar to KSU-Salina campus improvements or Saline County Jail Project).

Option Three: Numbers 1a and 2 above.

Testimony to House Education Committee H.B. 2352

By Karl Peterjohn
Executive Director

KTN has regularly testified in opposition to creating any sort of local income tax. In 1993 and 1994 KTN opposed local income tax proposals before the House Taxation and Senate Assessment and Taxation Committees. I am here today to testify in opposition to H.B. 2352.

There are only a small number of states which currently have any sort of local income tax. With the exception of Missouri, none of the states with local income taxes are adjacent to Kansas. The states with local income taxes are normally those who have raised their property and sales taxes to the point that this is the only remaining fiscal option. Cities with local income taxes include: New York, Cleveland, and Washington, D.C.

Tax Freedom Day is May 4 according to the non partisan Tax Foundation. This is the day in which Kansans stop working for government at all levels and begin working for ourselves. For states like Missouri, Colorado, and Oklahoma have earlier Tax Freedom Days. The Tax Freedom Days for these adjacent states are all in April.

The only feature in these sorts of bills which KTN approves is the requirement for automatic submission to voters. KTN strongly favors voter approval for all property and sales tax increases as well as the creation of any new taxes. KTN opposes this bill.

RE:

Testimony on H.B. 2352 - Sales and Income Tax for Local Option Budgets

Mr. Chairman, Members of the Committee:

We appreciate the opportunity to offer comments on H.B. 2352, which would allow school boards to submit to local voters the option of using sales or income taxes to help support local option budgets.

In attempting to determine a position on this bill, we have reviewed the policy positions which have been adopted by our Delegate Assembly. We believe there are two relevant positions within the section dealing with School Finance:

Local Sources. Local tax sources should include the ad valorem property tax and the intangibles tax.

District Wealth. Only tax resources that generate revenue for districts should be used to measure the ability of the district to pay its share its share of educational funding.

Our position on local sources specifically supports the use of the property tax, which is currently the only source of local revenue for local option budgets, and the intangibles tax, which is not an option allowed by state law. While this position does not specifically exclude the use of sales and income taxes, when this section of our policies was revised after the 1992 school finance act was passed, we did not include support for these sources for several reasons.

First, there are practical concerns about the ability to effectively implement these taxes. School district boundaries often run across city and county lines, so different rates of school sales taxes might further complicate the rates paid at different retail establishments. Income taxes were "rebated" under the former school finance system, but taxpayers had to "self-identify" their school districts. In urban communities, some taxpayers may not even be sure which district they reside in.

Second, if those concerns can be addressed, our position on **district wealth** means that if additional sources of revenue are made available to districts, then the calculation of state aid for local option budgets should also be adjusted. For example, assume that two districts of similar size have equal assessed valuation per pupil. Under current law, if they each adopt a similar local option budget, their local mill levy should be equal. But if those same two districts have different levels of sales or income,

House Education 2/7/96 Attachment 4 the "wealthier" district should be able to fund its LOB with a lower tax rate from all sources. This would obviously weaken the equalization features of the state school finance system.

We believe that both of these areas of concern must be addressed before the concept of local option sales and income taxes can be considered.

Thank your for your consideration. I will be happy to respond to any questions.

HB 2352

Testimony presented before the House Committee on Education by Gerald W. Henderson, Executive Director United School Administrators of Kansas February 7, 1996

Mister chairman and Members of the Committee:

United School Administrators of Kansas appreciates this opportunity to visit with the committee about funding for local option budgets. We have no particular problem with allowing individual districts the flexibility to fund LOB in the manner best suited to that district, but we are concerned that 1) the equalization features of the existing LOB will be lost, and 2) more importantly that the original purpose for local option budgets will be lost.

We are well aware that something must be done to enable the 138 districts with local option budgets which will expire next year to re-authorize those revenues. No school district will avoid the shock waves which will occur if those supplemental budgets are not re-authorized. However, let us not lose sight of what local option budgets were designed for. In 1992, LOB was added to the new finance plan for two reasons. First, some districts were spending in excess of limits the \$3600 Base State Aid Per Pupil would allow. Local option budget was approved to allow those districts to maintain what they were already spending. Secondly, LOB was added to allow some flexibility at the local district level. In the original law, LOB was scheduled to decrease in direct proportion to increases in BSAPP. LOB was designed to disappear over time. The problem of course has been that BSAPP has not been adequately funded, and districts have been forced to turn to LOB for relief. Just like with the old School District Equalization Act, the more wealthy districts seem to have fewer difficulties in providing educational opportunities for their children.

Again, we have no particular problems with the provisions of HB 2352 which allow for more flexibility. Our only concern is that the committee not lose sight of the purposes for LOB. The courts have not said that a suitable education should be available only to students in districts whose patrons are willing to approve a local option budget. That right is due all Kansas children.
