Date

### MINUTES OF THE HOUSE ECONOMIC DEVELOPMENT COMMITTEE

The meeting was called to order by Chairperson Lana Gordon at 3:30 P.M. on January 31, 2006 in Room 526-S of the Capitol.

All members were present except:

Richard Carlson- excused Annie Kuether- excused Judy Loganbill- excused Valdenia Winn- excused

Committee staff present:

Kathie Sparks, Kansas Legislative Research Department Renae Jefferies, Revisor of Statutes Helen Pedigo, Revisor of Statutes Carlene Maag, Committee Secretary

Conferees appearing before the committee:

Sheila Frahm, Executive Director, Kansas Association of Community College Trustees Richard Hoffman, Director, Kaw Area Technical School

Others attending:

See attached list.

Chairperson Gordon welcomed Sheila Frahm to the committee who spoke about workforce training for the Community Colleges.

Educators at Community Colleges feel that every course a student takes is workforce training.

Kansas Association of Community College Trustees (KACCT) represent all 19 public community colleges in Kansas.

Community college students come under several categories. College graduates seeking job skills for a career change, and current workers being updated and re-skilled are two of these categories.

Community colleges are an integral piece of the new higher education system in Kansas. 23% of the funding comes from State of Kansas, while the remainder comes from student tuition and property taxes.

The community colleges have some unique programs at the various colleges. Cloud County Community College offers a program pertaining to Wind Power Technology. Coffeyville Community College has a electrical and welding program. These programs are needed in this part of the state. (Attachment 1)

Ms. Frahm provided the committee with a map that shows the location of the 19 community colleges. (Attachment 2)

Discussion followed the presentation.

A motion was made by Representative Krehbiel and seconded by Representative Burroughs to approve the minutes from the meeting of January 19, 2006. A vote was taken, motion passed.

In testimony presented by Richard Hoffman, Director of Kaw Area Technical College (KATS) it was stated Technical Education doesn't cost the state, it pays."

The Commercial Driving Program started at Fort Scott Community College is now offered at (KATS) It only takes 12 graduates from this program for the State of Kansas to receive 100% return on its investment. The current class has 21 students enrolled. (Attachment 3)

KATS is considering partnering with Washburn University. If this were to happen, students could take basic education classes at Washburn and then continue at KATS for their associate degree. Chairperson Gordon

### CONTINUATION SHEET

MINUTES OF THE House Economic Development Committee at 3:30 P.M. on January 31, 2006 in Room 526-S of the Capitol.

complimented Mr. Hoffman for looking into this option.

The meeting adjourned at 4:30 p.m. The next meeting is scheduled for Thursday, February 2.

From: Sheila Frahm, Executive Director

Date: January 19, 2006

RE: Workforce Development

#### Members of the Committee:

Thank you for the opportunity to join you today. KACCT – a private not-for-profit association — represents all 19 public community colleges in Kansas; we seek to help them keep a strong/united voice and help assure their programs and needs are understood by the Kansas Legislature, Governor's office and the Kansas Board of Regents. We, in public higher education (now 36 institutions), have not had nearly enough opportunity to discuss this very important issue with you. In the time allowed I want to give you background about community colleges, our organization and structure, governance, funding, enrollments, tuition/fees and samples of workforce development programs currently being utilized by students on our campuses.

#### Community college students are:

- 1. Traditional recent high school graduates who will be transferring to 4 year colleges and universities,
- 2. Associate Degree Program Students,
- 3. Certificate Program Students.
- 4. Concurrent enrollees, out-reach/off main campus and on-line students,
- 5. Returning or beginning "mature/non-traditional" students,
- 6. College graduates seeking jobs skills for a career change,
- 7. Current workers being updated and re-skilled and even,
- 8. ABE, GED, ESL and Developmental Education Students,
- 9. And citizens of all ages in each community where community colleges are located.

- 6. Community College Annual Enrollments
- 7. Community College Enrollment by Residency—Kansans who stay Kansans
- 8. Tuition
- 9. Kansas Community College "Gold Star" Workforce Development Efforts

#### Workforce Training Opportunities: Attachment \_\_9\_\_

I've read the Report to the 2006 Legislature: Joint Committee on Economic Development (the Workforce Development section) and note the description of workforce development as a partnership between the State and business to develop employment opportunities with meaningful and sustainable income to Kansans and providing programs that assist business through specialized training . . . . . I know we in Higher Education look forward to working with your committees and state agencies to provide the workforce training necessary to assist existing and new businesses, to support our local communities and to develop productive citizens and taxpayers. Community Colleges in Kansas provide a wide range of training experiences related directly and indirectly to Workforce Development. Most of the program offerings are related to the needs of industry in the College's service area. Some institutions do a significant amount of customized training that can be either on site at the industry or on the College's campus. This training is designed specifically to meet the needs of industry. Other institutions have vocational programs that serve the needs of existing workforce and new workers coming into industry. These programs range from machine shop to associate degree nursing programs. Although there is a significant difference in the programs both serve the need to supply workers, whether it is in a hospital environment or production/repair shop.

The ability of Kansas Community Colleges in meeting the needs of business and industry is unique and one we consider a very important role for each of our colleges.

Thank you and please contact our college leaders, visit our campuses and please continue to help us answer questions, respond to inquiries and requests for training for one or hundreds.

# CRITICAL COMPONENTS FOR COMMUNITY COLLEGE SERVICES TO THE PEOPLE OF KANSAS

Community colleges are an integral piece of the new higher education system in Kansas. They are uniquely structured and positioned to provide an accessible affordable option for individuals with varied educational and career goals. Among the community colleges' characteristics are flexibility, quick response time, close ties to business and industry and a nurturing learning environment.

The value that community colleges provide to individuals and families in Kansas is rooted in eight critical components that define these institutions of higher education and enable them to provide vital and effective services to the benefit of the citizens and businesses in our state. Beneficiaries include immigrants learning English and studying to become American citizens; adults attaining basic education and building literacy skills; seniors enriching life through learning; place-bound Kansans balancing education with multiple responsibilities in their home communities; and those who must keep pace with the changing demands of the workplace. Traditional students preparing for transfer to four-year institutions receive a solid foundation for continued success.

#### **Eight Critical Components**

As the new system is further defined and the Kansas community colleges are fully engaged in that definition, they value the support of the Kansas Board of Regents in preserving the following eight **Critical Components** that ensure continued success.

- Operating under the authority of locally elected boards of trustees and coordinated by Kansas Board of Regents as authorized by SB 345.
- Selecting, retaining, compensating or dismissing their chief executive officers;
- Setting their institutional budgets in response to the learning needs of the citizens being served;
- Determining and approving their own missions with emphasis on meeting community, area and regional needs to benefit the entire state;
- Maintaining existing service areas which form a statewide network for citizen and student access;
- Responding quickly and effectively to the training needs of area business and industry;
- Providing education that is accessible to all Kansans at a cost all citizens can afford; and
- Owning and administering campus property.

(Created 7/97, Rev. 09/02, Rev.11/02)

# Kansas Community College "Gold Star" Workforce Development Efforts

Fall 2005 (Provided at the request of Kansas Board of Regents, Chairwoman Donna Shank and President Reggie Robinson)

#### **Allen County Community College**

- Allied Health: Geriatric Aide, Medication Aide, Rehabilitation Aide, Home Health Aide, Emergency Care: First Responder, EMT Basic, EMT Intermediate. Paramedic Program – Fall, 2006
- 2. Information Networking Technology
- 3. Management Development & Distributive Ed/Mid-management
- 4. Farm & Ranch Management
- 5. ABE, ESL & GED

#### **Barton County Community College**

- Adult Health Care: RN, LPN, Dietary Management Certification (partnership with KSU)
- Child Care Fair, Lee Turner Lecture series for law enforcement workers and NACE (National Assn. Of Corrosion Engineers) Seminar
- Utility Industry training partnered to build new Midwest Utility Pipeline Training Center
- 4. Case New Holland Global training for Kansas & Midwest region employees
- Certificate or Associate of Applied Science degrees: Auto, Agriculture, Business, Business Technology, Childcare & Guidance, Criminal Justice, Emergency Services, Graphic Arts & Design, Medical Office Assistant, Office Technology, & Networking

#### **Butler Community College**

- IT Programs: Database Admin & Development, Digital Media, Internetworking Management, Software Development, Windows Administration
- 2. Fire Science with "residential program" to live in the Fire House
- 3. Engineering/Manufacturing Technology: Mfg Engineering Tech., Engineering Graphics Tech.—Master Cam, Feature Cam, Cattier and AutoCAD.
- 4. Real-time Reporting for court reporters, broadcast cautioners and one-on-one cautioners for the deaf and hard-of hearing community.
- 5. Practical and Registered Nurses Programs

#### **Cloud County Community College**

- 1. Applied Health: CAN, CMA, EMS, Home Health Aide, AND & RN
- 2. Early Childhood Development
- 3. ABE/GED
- 4. Wind Power Technology (fall 06)
- 5. Criminal Justice

#### Coffeyville Community College

- 1. Paramedic Program
- 2. Welding—new facility in former National Guard Armory to accommodate additional students
- 3. Electrical Program
- 4. B & I Customized training for local businesses on site

9-0

#### **Colby Community College**

- Practical Nurse and Registered Nurse programs Colby & Satellite campus in Norton
- 2. Dental Hygienist cooperative arrangement with Northcentral Tech. College in Wausau, Wisconsin (one of top ten occupations in KS)
- 3. Veterinary Technicians small and large animal clinic technicians

#### **Cowley College**

- 1. Aviation Tech Center located in Wichita with training for FAA specified maintenance professionals with application to other industries
- 2. Non Destructive Technology develops technicians to examine or measure specified properties or performance capabilities of manufactured materials, parts, assemblies and equipment by testing procedures that do not affect serviceability.
- 3. Industrial Technology Center located in Mulvane with programs in Automotive Service Technology, Welding Technology, and Machine & Tool Technology primarily for high school students (8 schools cooperating to receive this training).

#### **Dodge City Community College**

- 1. English classes on-site at area beef packing plants three progressive levels
- 2. New manufacturing and welding building for beef packing industry training
- The DCCC Leadership Institute outstanding high school students gather for intense week to explore opportunities in disciplines critical to the future of the development of educated and skilled workforce.
- ACCESS US partnership with ESU, FHSU, KSU and 5 other community colleges. Bachelor's degree: Business Technology, Business General Studies-Marketing, Accounting, or Management, and BS Nursing.

#### **Fort Scott Community College**

- Harley Davidson Training Center unique & only partnership with Harley
  Davidson for training technicians and managers. PSU cooperative program for
  management training and Bachelors degree.
- 2. Dental Hygiene
- 3. Commercial Truck Driving CDL training with centers located in Kansas City, Emporia, Topeka and Fort Scott. 400 students annually.
- 4. John Deere Ag Tech (one of 27 nationwide). PSU partnership to allow students to complete management program along with technical program.
- 5. Environmental Water Technology—training provided workforce needed by over 400 governmental agencies addressing water treatment, water runoff, water conservation and management issues for public utilities.

#### **Garden City Community College**

 Law Enforcement – hands on training with community service component to emphasize personal integrity, ethics, team-building and responsible behavior. Integrated with Fire Science and EMS services to provide training for Homeland Security.

9-6

1-14

#### Page -3-

- John Deere Ag Technology Students sponsored by a dealer. Students
  participate in two paid internships as part of their program of study to be
  dealership technicians.
- 3. Ammonia Refrigeration—training provided for over 4000 students from 438 companies in 50 states and 6 nations to enhance the level of safety and theoretical knowledge for the efficient operation of ammonia refrigeration systems in food-processing industry.

#### **Highland Community College**

- Early Childhood US Dept of Labor identifies as fastest growing occupation
- 2. Allied Health Programs
- 3. Doniphan County Economic Development leadership and staff are college employees and the college coordinates B & I discussions.

#### **Hutchinson Community College**

- Manufacturing Training blueprint reading, shop mathematics, precision measurement, metallurgy, employability skills, industrial electronics, computing skills, supervision and management.
- 2. AGC- Commercial Construction Craft Training training subcontractor for Associated General Contractors KS Chapter.
- 3. Computer Support/Software applications/AutoDesk Center software support training
- 4. Fire Science, EMS Education, Health Care Training, Supervision & Management/Leadership, OSHA and Public Health and Safety Training

### **Independence Community College**

- 1. Sheet Metal Assembly
- New employee work skills & supervisory skills
- 3. Blueprint Reading: Machine & Aircraft
- 4. Production & Inventory Management
- 5. Office (Microsoft, Cisco & Microsoft) and Small Business Training
- Customized Training: CESSNA –new building on campus, Farmland Industries, Amazon.com, Mercy Hospital, Prestige Cabinets, DataCrunchers.com

### Johnson County Community College

- 1. Hospitality Management 435 students currently registered
- 2. Interior Design 259 current students
- 3. Automotive Technology 185 students enrolled
- 4. Railroad Conductor 591 students/Burlington Northern Santa Fe or other railroad employers
- 5. Associate Degree Nursing Program

9-C

#### Page -4-

6. Emergency Medical Science: Medical Intensive Care Technician (Paramedic) is one of three progressive intense options.

#### Kansas City Kansas Community College

- Mortuary Science most Kansas Morticians hold their credentials from KCKCC
- Audio Engineering for employment at Sprint (or in KC, Chicago and NY City) running sound equipment.
- 3. Initiatives: Bridging Language and Cultural Barriers, Biz Festentrepreneurial training for high school Latinos, and Cyberworkforce Development—skills and preparation for "the world of work".

#### **Labette Community College**

- Bi-level Nursing Program: Practical Nurse Certificate, LPN and Associate
  RN
- 2. Respiratory Care Program graduates eligible to become registered therapists

#### **Neosho County Community College**

- Health Care: Allied health, medical assistant, licensed practical nurse, & registered nurse students/ graduates
- 2. Adult Basic Education and Partners in Change Workforce Development Program: workforce reading, math, communication and blueprint reading along with soft skills: work ethic, responsibility, goal setting, and teamwork strategies (SRS partner

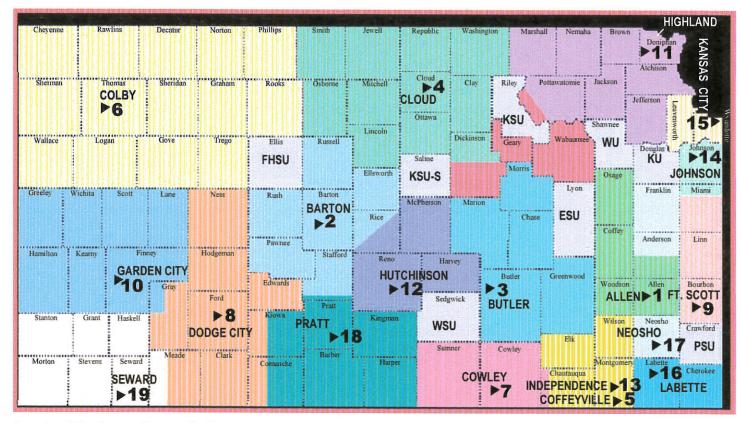

### **Pratt Community College**

- 1. Bi-level Nursing capacity 2002 / 60, 2007/ 180
- 2. Allied Health: Nurse Aide, Med Aid, Home Health Aide, Social Service Designee, Restorative Aide, Activity Director, CPR, LPN IV Therapy
- Automotive Technology—entry level technicians for automotive service industry
- 4. Electrical Power Technology entry level apprentice linemen

### **Seward County Community College**

- Cosmetology 11-month certificate or 2-year Associate of Applied Science Degree – partner with JC Penney Co.
- 2. Surgical Technology –expertise in theory/application of aseptic technique and knowledge of human anatomy, surgical procedures, instrumentation and technologies to facilitate a physician's performance
- 3. Respiratory Therapy skills to treat infants to elderly
- 4. Medical Laboratory Technician Program
- 5. Nursing: Practical Nursing (PN) and Assoc Degree Nursing (RN)

9-d

- 1. Allen County Community College, Iola
- 2. Barton County Community College, Great Bend
- 3. Butler County Community College, El Dorado
- > 4. Cloud County Community College, Concordia
- 5. Coffeyville Community College, Coffeyville
- ➢ 6. Colby Community College, Colby
- > 7. Cowley County Community College, Arkansas City
- ▶ 8. Dodge City Community College, Dodge City
- 9. Fort Scott Community College, Fort Scott
- > 10. Garden City Community College, Garden City
- > 11. Highland Community College, Highland

- > 12. Hutchinson Community College, Hutchinson
- > 13. Independence Community College, Independence
- > 14. Johnson County Community College Overland Park
- > 15. Kansas City Kansas Community College, Kansas City
- ▶ 16. Labette Community College, Parsons
- > 17. Neosho County Community College, Chanute
- 18. Pratt Community College, Pratt
- > 19. Seward County Community College, Liberal
- State Universities/Washburn
- Unassigned/Shared

January 31, 2006

#### Honorable Members:

At first, you may think my testimony is about asking the House Economic Development Committee to spend more money for technical education. This is not true. Technical education is not an expense to the state, it is an investment. An investment in education needed by eighty percent (80%) of the workforce in programs of high standards where ninety percent (90%) of the graduates remain in Kansas to live, work, and I might add, vote.

I am here today to ask for your assistance in addressing the shameful way technical education has been funded in Kansas. This will not be an overnight fix. What has taken ten years to create will not be corrected in one year. But, we can begin today to set a course of action that will allow Kansas to remain not just competitive but take the lead in providing a quality of life unsurpassed in the history of our nation.

#### We are all concerned with:

- Who will replace the baby boomers as they retire?
- How will we overcome the shortage of nurses?
- Is it possible to stem the tide of rampant migration of workers fleeing rural areas?
- Can we prevent illegal immigrants from coming into the state to do the work others won't?

#### To me, the solution is simple.

Provide adequate funding to meet the educational needs of a highly-skilled workforce. The return on investing in technical education is phenomenal. Training for high-skilled jobs leads to a corresponding increase in wages. These wages in turn are used to purchase better housing which results in higher property tax, buy more goods and services which will increase sales tax, and of course, everybody's favorite, provide more revenue from income tax.

While the return on investment in quality training can be measured by increasing tax dollars, there is another reason for Kansas to provide high-quality training programs. Safety, which requires the job to be done right the first time—every time. You will never see a statistic outlining the number of lives saved by a highly-skilled maintenance tech that performs the routine service needed to keep production on track at your local plant. But, if that maintenance is not performed, you'll see it on the front page of every newspaper, "Workers Killed in Industrial Accident."

On a personal note, how many times do you want a nurse to give you the correct shot? Do you want the brakes on your car to work every time? While it may only be an inconvenience, how long are you willing to wait for a plumber when your toilet backs up?

We take many things for granted in today's society. We expect the lights to work at the flip of a switch; the food we eat to be kept refrigerated at temperatures safe from health threatening bacteria; and our homes built to withstand the forces of nature keeping us safe from outside elements. All of these expectations and many more cannot be accomplished without a highly-skilled, highly-trained workforce.

To provide this quality of service and to get it right the first time and every time, technical education needs your help. The Kansas Board of Regents recognized the need to adequately fund technical education and proposed an increase of 1.8 million dollars for FY07. The governor's budget only provides for one million more than last year. I have attached statistics to this testimony that shows, over the last ten years, technical education has been funded at half the rate of increase as the average of all sectors of higher education. To correct this, I am asking you to increase the funding for technical education by 5 million dollars for FY2007.

There are many demands on the limited amounts of money that are available to spend on all programs you are asked to fund. Just remember—when you provide the dollars necessary to adequately fund high quality training, you provide Kansans with the skills necessary to qualify for high paying jobs.

"Technical Education doesn't cost the state, it pays."

Thank you, Richard B. Hoffman

Richard B. Hoffman

President

### "Technical Education doesn't cost the state, it pays."

Some recent information about the Commercial Driving Program started by Fort Scott Community College, (FSCC) in cooperation with Kaw Area Technical School, (KATS) Topeka, Kansas is noted below.

- The program is provided by FSCC on the KATS campus because FSCC can provide programs at a reduced rate to students because FSCC receives more money per student than KATS.
- Community college budgets have increased 76% over the last ten years while technical schools and colleges have only increased 18%.

That aside, this program is an economic treasure chest for the state.

- It only takes 12 graduates from this program in order for the State of Kansas to receive 100% return on its investment (ROI) for the limited dollars provided, with \$36,000 granted from the Department of Commerce. (The first class had 6 graduates; the current class has 21 students enrolled.)
- After a year of classes, it is estimated the ROI will be 300%. (An increase in wages will result in an increase in taxes.)
- Graduates from the first Commercial Driving class have all received job offers from \$45,000 \$62,000 (an increase on average of \$30,000 per graduate). This course was completed in one month!
- Twenty-four graduates times \$30,000 more taxable income each = \$720,000 of income to buy houses and pay more property taxes. More discretionary income for purchases subject to sales tax and of course more income tax.

### "Technical Education doesn't cost the state, it pays."

This is only one example. There are many more programs including Nursing, Industrial Maintenance and Automotive just to name a few.

For more information on this and other technical programs that pay Kansas, contact:

Total Number of Students on Program Waiting Lists for Fall 2005 Semester

860

Area Technical Schools at Coffeyville, Hutchinson, and Johnson County community colleges are included because those programs receive funding through the postsecondary aid allocation.

Area Technical Schools at Cowley, Pratt, and Dodge City community colleges are not included because those programs do not receive funding from the postsecondary aid allocation.

### "Technical Education doesn't cost the state, it pays."

- Higher Education has averaged 36.2% increase in funding over the last 10 years.
- Community colleges are receiving 76% more money in FY 2006 than in FY 1997.
- Why has Vocational Education only been allocated 18.5% in that same 10-year period? (1.85% per year compared to 7.6%)
- The Governor's recommendation for Higher Education includes an average increase in funding of 4.25% with community colleges getting 5.38%.
- Why are Technical Schools and Colleges only recommended for 3.31%? If tech ed dollars were not included to bring the average down, the average would be over 5%.
