

MINUTES OF THE HOUSE CORRECTIONS AND JUVENILE JUSTICE COMMITTEE

The meeting was called to order by Chairperson Pat Colloton at 1:30 p.m. on January 19, 2011, in Room 144-S of the Capitol.

All members were present except: Lance Kinzer

Committee staff present:

Sean Ostrow, Office of the Revisor of Statutes
Jason Thompson, Office of the Revisor of Statutes
Lauren Douglass, Kansas Legislative Research Department
Jackie Lunn, Committee Assistant

Conferees appearing before the Committee:

Keven Pellant, Acting Secretary, Kansas Department of Corrections

Others attending:

See attached list.

Chairperson Colloton called the meeting to order and announced that the Committee has an invitation to see a play put on by the Women's Correctional Facility in Topeka on January 31st at 7:00 pm. She called for a head count of those wishing to attend. Nine out of the thirteen members have an interest.

Chairperson Colloton then opened the floor for bill introductions and recognized Representative Wolf who had a bill request regarding house arrest expanding the technology used.

Representative Roth moved the request. Representative Goodman seconded. Motion carried.

Chairperson Colloton opened the hearing on **HB 2023-Amending the drug schedule by adding additional unlawful substances.**, and introduced Debra Billingsly, Kansas Board of Pharmacy to give her testimony as a proponent of the bill. Ms. Billingsly presented written copy of her testimony which can be found in its entirety in the offices of Legislative Administrative Services, 5th Floor, Statehouse. (Attachment 1) Ms. Billingsly explained the need to bring the Kansas controlled schedules in line with the federal schedules. She presented a copy of the schedules for Kansas and the federal government. les. (Attachment 2).

With no others to speak or testify to the bill, Chairperson closed the hearing on **HB 2023.**

A question and answer session followed.

Chairperson Colloton recognized Representative Pauls for a bill request. Representative Pauls requested a bill introduction regarding fees for misdemeanors and felonies being raised in order to create a fund for training.

Representative Kinzer moved the request as a committee bill. Representative Pauls seconded. Motion carried.

Chairperson Colloton recognized Representative Brookens for a bill introduction. He moved a bill request to address the Court of Appeals increasing charges . Representative Pauls seconded. Motion carried.

Chairperson Colloton announced the Committee would not meet this Friday but would meet next Friday and adjourned the meeting at 2:10 pm with the next scheduled for January 20, 2011 at 1:30 pm in room 144-S.

DATE: 1-19-10

[illegible]

Testimony concerning HB 2023
Committee on Corrections and Juvenile Justice
Presented by Debra Billingsley
On behalf of
The Kansas Board of Pharmacy
January 19, 2011

Madam Chair, Members of the Committee:

My name is Debra Billingsley and I am the Executive Secretary of the Kansas State Board of Pharmacy. The Board is created by statute and is comprised of seven members, each of whom is appointed by the Governor. Of the seven, six are licensed pharmacists and one is a member of the general public. The Board of Pharmacy, pursuant to K.S.A. 65-4102(b), is required to submit an annual report on controlled substances proposed by the Board for scheduling, rescheduling or deletion by the legislature.

The Board conducted a side by side comparison of the State Controlled Substances list to the Federal Controlled Substances list. The Board recommends amending the state laws to match the federal laws in order to facilitate uniformity while maintaining and enhancing the consumer protections afforded by the Pharmacy Board regulatory system.

In proposing to the Legislature that any drugs be classified as a scheduled controlled substance, the Board relies on the following factors set forth in K.S.A. 65-4102(b). Specifically, the proposal must state the reasons that the Board makes their recommendations by considering the following factors: 1) Potential for abuse; 2) the scientific evidence of its pharmacological effect, if known; 3) the state of current scientific knowledge regarding the substance; 4) the history and current pattern of abuse; 5) the scope, duration and significance of abuse; 6) the risk to the public health; 7) the potential of the substance to produce psychological or physiological dependence liability; and 8) whether the substance is an immediate precursor of a substance already controlled under this article.

The Drug Enforcement Agency (DEA) also issues their rulings based on information provided by the DEA's Deputy Administrator and the Department of Health and Human Services using the same factors and criteria that the state uses. The DEA has already reviewed the pharmacology, chemistry, trafficking, actual abuse, pattern of abuse and the relative potential for abuse of the drugs that the Board recommends be amended into the state schedule.

The Board of Pharmacy recommends that 4-Bromo-2,5-dimethoxyphenethylamine (Street names: Nexus, Toonies, Venus, 2C-B); 2,5-Dimethoxy-4-(n)-propylthiophenethylamine (Street names: Blue Mystic, T7, Beautiful, Tripstay, Tweety-Bird); Alpha-Methytryptamine (Street name Spirals); and 5-Methoxy-N,N-diisopropyltryptamine (Street name: Foxy) be added to Schedule I. These drugs have a high potential for abuse and have no accepted medical use in treatment in the United States. All four drugs are hallucinogens producing euphoria and altering sensory perception. They have effects common to LSD.

The Board of Pharmacy recommends that the following substances be added to Schedule II. These have a high potential for abuse but have an accepted medical use in the United States or a currently accepted medical use with severe restrictions.

Dihydroetorphine is a potent analgesic painkiller. It is used primarily in the sedation of large animals. It is several times stronger than morphine. *Oripavine* is a narcotic opiate. It is not used clinically but it is the parent compound from which a series of semi-synthetic opioids are derived. *Remifentanil* is a potent short acting synthetic opioid analgesic drug given to patients during surgery to relieve pain. It is used for sedation and in combination with other medications for use in general anesthesia. *Tapentadol* is an analgesic painkiller. It is used to treat moderate to severe acute pain. *Lisdexamfetamine* is used to treat attention deficit disorder.

The Board of Pharmacy recommends that the following substances be added to schedule III. Schedule III drugs have less potential for abuse than Schedule II drugs and they have an accepted medical use in treatment in the United States.

Page Three
January 19, 2011
Kansas Controlled Substances Act

Embutramide is a potent sedative drug. It is used for euthanasia in veterinary medicine, mainly for euthanizing dogs. *Buprenorphine* is used to treat opioid addiction and to control moderate pain.

The Board of Pharmacy recommends that the following substances be added to Schedule IV. Schedule IV drugs have a lower potential for abuse relative to the drugs in Schedule III. They have current accepted medical uses in treatment in the United States.

Dichloralphenazone is an active ingredient of medications for migraine and vascular tension headaches. *Fospropofol* is an intravenous sedative-hypnotic used in the sedation of adult patients undergoing diagnostic or therapeutic procedures such as endoscopy. *Zopiclone* is a hypnotic agent used in the treatment of insomnia.

The Board of Pharmacy recommends that the following substances be added to Schedule V. Schedule V substances have a low potential for abuse relative to the drugs in Schedule IV. They have a currently accepted medical use in treatment in the United States. Abuse of the drug may lead to limited physical dependence or psychological dependence relative to the drugs in Schedule IV.

Lacosamide is used in the treatment of partial-onset seizures and diabetic neuropathic pain. *Pregabalin* is an anticonvulsant drug used for neuropathic pain and for partial seizures in adults. It is also used for generalized anxiety disorder.

The Board of Pharmacy recommends that *Buprenorphine* be removed from Schedule V because it was moved to Schedule III federally.

Thank you for permitting me to testify. I will yield to any questions from the committee.

Comparison of Fed and KS Controlled Substances

Drug	DEA code	Fed	Kansas
OPIATES			
Acetyl-alpha-methylfentanyl (N-[1-(1-methyl-2-phenethyl)-4-piperidinyl]-N-phenylacetamide)	9815	1	1
Acetylmethadol	9601	1	1
