

MINUTES OF THE SENATE EDUCATION COMMITTEE

The meeting was called to order by Chairman Jean Schodorf at 1:30 p.m. on February 3, 2011, in Room 152-S of the Capitol.

All members were present.

Committee staff present:

Sharon Wenger, Kansas Legislative Research Department
Laura Younker, Kansas Legislative Research Department
Jason Long, Office of the Revisor of Statutes
Eunice Peters, Office of the Revisor of Statutes
Dale Dennis, Deputy Commissioner, Kansas Department of Education
Dorothy Gerhardt, Committee Assistant

Conferees appearing before the Committee:

Senator John Vratil
Bob Vancrum, USD #229
Stuart J. Little, USD #512
Gary George, USD #233

Others attending:

See attached list.

Hearing on **SB 21 - School districts; use of funds from tax levies on motor vehicles and recreational vehicles**

Jason Long, Office of the Revisor of Statutes, appeared before the committee with a brief explanation of **SB 21**. He stated the proposed legislation is the result of an Attorney General's opinion dated June 25, 2010 which provides that the state can no longer collect the motor vehicle tax for special levies such as ancillary facilities, cost of living, and declining enrollment. The legislation would not have any effect on the state but would clean up the statutes to comply with the Attorney General's opinion.

Senator John Vratil appeared before the committee in support of the legislation (Attachment 1). Senator Vratil testified that the bill applies to any school district which has authority for ancillary school facilities weighting, cost of living weighting, or declining enrollment weighting. As a result of the Attorney General's opinion, motor vehicles are not taxable tangible property; therefore, when a school district levies a tax, the district does not have the authority to spend the revenue. The bill merely amends current law to authorize school districts to spend the revenue.

Robert J. Vancrum, Government Affairs Specialist for Blue Valley USD #229, (Attachment 2); Stuart J. Little, Shawnee Mission School District, USD #512 (Attachment 3); and Gary George, Asst. Superintendent of Schools, Olathe USD #233 (Attachment 4) all appeared with testimony in support of the proposed legislation.

Committee discussion followed. It was pointed out that the legislation affects only about seven to nine school districts.

It was moved by Senator Abrams and seconded by Senator King that the committee recommend SB 21 favorable for passage. Motion carried on a voice vote.

School Districts' Expenditures on Instruction and Ending Fund Balances in School Districts

Dale Dennis, Deputy Commissioner, Kansas Department of Education, appeared before the committee with a review of the percentage of operating expenditures which are a part of instruction as well as the pupil and staff support services and ending fund balances in school districts. Senator Schodorf stated this was in response to the many questions raised regarding monies available to schools for spending and where these funds could be spent.

Mr. Dennis began the presentation with a discussion regarding classification of expenditures (Attachment 5) and examples of the classification of various services and the difficulty associated with this. He stated

CONTINUATION SHEET

Minutes of the Senate Education Committee at 1:30 p.m. on February 3, 2011, in Room 152-S of the Capitol.

the definitions used for whatever percentage the locally elected boards of education chose to spend in the appropriate categories need to be defined carefully. The decision on expenditures and allocation of expenditures is made by the local boards of education. Caution must be used in comparing districts as there are a number of reasons that may cause school districts' expenditures to vary. Some of these would include the size of a district and its affect on transportation costs, the number of buildings a district deems necessary, the age of buildings, students eligible for free or reduced price meals, number of bilingual students, and the number of special needs students. A summary of various expenditures per district was provided the committee (Attachment 6).

A report on ending fund balances followed (Attachment 7). He stressed the fact that if school districts have a special mill levy such as capital outlay or bond and interest, the funds collected can only constitutionally be spent for those purposes. For any fund transfers during the year, he stressed the district needed to have a plan. Additional committee discussion followed.

Approval of Minutes

Senator Abrams moved to approve the minutes of January 19, 24, 25, and 26, 2011 as written. The motion was seconded by Senator Teichman. Motion carried on a voice vote.

The next meeting is scheduled for February 7, 2011.

The meeting was adjourned at 02:25 p.m.

COMMISSION

Good afternoon! Thank you for the opportunity to appear before the Senate Committee on Education in support of Senate Bill (SB) 21.

Senate Bill 21 applies to any school district that has authority for ancillary school facilities weighting, cost of living weighting, or declining enrollment weighting. Current statutes authorize a school district to levy a tax on all taxable tangible property in the district for the purpose of funding the three weightings. However, as the result of an Attorney General's Opinion issued on June 25, 2010, it is the Attorney General's opinion that motor vehicles are not taxable tangible property under current law. Therefore, when a school district levies a tax, the district receives revenue from motor vehicles; but the school district does not have the authority to spend the revenue. Senate Bill 21 merely amends current law to authorize school districts to spend the revenue.

Senate Bill 21 has no fiscal impact on the state. It will result in a small reduction in the mill levy of affected school districts.

The bill was recommended by the 2010 Legislative Educational Planning Committee. I ask you to support SB 21.

Attachment 1

Senate Education Committee on 2011 SB 21
Testimony of
Robert J. Vancrum, Government Affairs Specialist for
Blue Valley USD #229
February 3, 2011

Chairman Schodorf and other Honorable Senators:

Currently tax revenue on motor vehicles is collected for ancillary facilities fund, cost of living fund, and declining enrollment fund, and it is returned to the districts who have levied the tax as per a recent AG opinion but those districts do not have the authority to use or spend these funds.

The tax revenue raised from just this portion of these three levies merely goes into a fund and cannot currently be used to lower the levy. This bill merely authorizes the use of the tax revenue already raised by an authorized levy within said districts.

This does not give districts additional spending authority. There is also no fiscal note to the state.

A similar bill passed the Senate last year 39-1.

I would be happy to stand for questions at the appropriate time.

**Senate Education Committee
Testimony on Senate Bill 21**

February 3, 2011

Chairwoman Schodorf and Members of the Committee,

I am appearing today on behalf of the Shawnee Mission School District, located in Johnson County. I appear today in support of Senate Bill 21. Shawnee Mission is the state's third largest school district with 27,827 students enrolled in 2010-11. We are like all other school districts in Kansas who have adjusted to the declining state financial support. We have been reducing teachers and administrators, increasing class size, and closing schools in the last two years. We are very aware of the challenges you face at the state and are preparing to implement additional reductions. We are managing the reductions in funding in our schools and our patrons are noticing the impact of budget cuts on the education their children receive. Senate Bill 21 is one measure that can help us build public support by correcting a problem that unfairly overtaxes Johnson County residents.

When the ancillary facilities, declining enrollment and cost of living weightings were implemented, districts were required to levy a tax to support the state cost of the weighting. The Kansas Department of Education created a template to compute the required tax rate. The district assesses the tax and remits the proceeds each year to the state. The approved amount is then included in the weighted enrollment of the district.

The KSDE calculation did not consider the motor vehicle taxes that are generated when a tax levy is increased. The tax on motor vehicles is based on the average county levy and is distributed based on the levy in each district. Within each district, the amount received is prorated based on the levy in each fund. The combination of ad valorem and motor vehicle receipts was more than the approved amount of the weighting, yet districts were required to remit the full amount to the state.

Last summer, the Kansas Attorney General was asked to give an opinion whether these statutes required the calculation of the levy to include motor vehicle taxes. His opinion was that motor vehicle taxes are not included under the definition of ad valorem taxes. Based on subsequent discussions with KSDE, the Attorney General's Office and the Revisor of Statutes, it was also determined that the statutory requirement to remit tax collections from ad valorem taxes does not include proceeds from motor vehicle taxes. The bottom line is that districts qualifying for these weightings will collect motor vehicle taxes each year without any authority to use the proceeds. In effect, the balances will continue to rise each year until legislation is passed to correct the situation. This bill does not provide any additional funding to these school districts.

February 3, 2011

TO: Senator Jean Schodorf, Chair, and Members of the Senate Standing Committee on Education

FROM: Gary George, Ed.D., Assistant Superintendent of Schools
Olathe Public Schools

SUBJECT: Senate Bill 21, Tax Levies on Motor and Recreational Vehicles

I am present today to seek your support of Senate Bill 21. This bill is a technical correction to an existing statute; K.S.A. 72-6441. This statute allows districts to levy a property tax for the difference in what we receive in new facility weighting and the amount required to open the facility. When the tax amount is identified, the county applies the tax to real estate and, as a by-product, to motor and recreational vehicles, producing excess revenue beyond what the Court of Tax Appeals has authorized. The excess revenue was remitted to the state.

An attorney general's opinion indicated that existing statutes make it clear that motor vehicles were taxed in a different way. This now brings us to Senate Bill 21. Senate Bill 21 helps clarify that the state board shall include any moneys which have been apportioned to the ancillary facilities fund of the district from taxes levied under the provisions of K.S.A. 79-5101 et seq. and 79-5118 and amendments. The two statutes define motor vehicle and recreational vehicle.

There are several things to keep in mind about this requested change. It only impacts three funds:

- Ancillary facility weighting
- Cost of Living
- Declining enrollment

The change does not cost the state any money. The change does not take any money from other districts in the state. Only a very small number of districts will be impacted by this change. For the districts impacted, the mill levy for these funds will decline slightly.

Your support of this bill would be very much appreciated.

Thank you.

February 3, 2011

TO: Senate Education Committee

FROM: Dale M. Dennis, Deputy
Commissioner of Education

SUBJECT: USD Instructional Operating Expenditures

The Chairman has requested that we review the percentage of operating expenditures that are a part of instruction as well as the pupil and staff support services.

DEFINITIONS

Operating Expenditures (U.S. Census Bureau)

The current definition of operating expenditures of the U. S. Census Bureau includes all operating costs not just general and supplement general funds.

1000-Instruction – State Average 61.54%

1000-Instruction includes the following expenditures: certified and non-certified salaries; employee benefits; all purchases and professional services related to instruction; and supplies, textbooks, and equipment related to instruction.

2100-Student Support Services – State Average 4.71%

2100-Student Support Services includes the following expenditures: social services, student attendance services, student accounting services, counseling services, health services (dental, nursing, etc.), psychological services, speech pathology and audiology services, occupational therapy services improvement of instruction services

2200-Staff Support Services – State Average 4.46%

2200-Staff Support Services includes the following expenditures: library media (school library and audio-visual), instruction and related technology, network services, and academic student assessments.

Numerous questions have been raised concerning the percentage of operating expenditures for instruction. Many times a definition is not attached to the comments. Therefore, if you include

*Senate Education
2-3-11
Attachment 6*

the 1000, 2100, and 2200 services, the state average was 70.71 percent for the 2008-09 school year. The 2009-10 data will not be available for approximately 60 days.

Many educators consider social workers, counseling services, health services, psychological services, speech pathology/audio-visual services, occupational therapy services, and library media services as part of the instructional program. Therefore, the definitions used for whatever percentage the locally elected boards of education choose to spend in the appropriate categories need to be defined carefully. The decision on expenditures and allocation of expenditures is made by the local boards of education.

STATE TOTALS

2008-2009 Current Operating Expenditures (as defined by U.S. Census Bureau)

Function	Function Description	Expenditures*	State Percent
1000	Instruction	2,883,093,520	61.54%
2100	Support Services (Pupils)	220,584,667	4.71%
2200	Support Services (Inst. Staff)	208,842,059	4.46%
2300	Support Services (Gen. Admin.)	124,154,475	2.65%
2400	Support Services (School Admin.)	274,692,312	5.86%
2600	Operations & Maintenance	455,580,021	9.72%
2700	Transportation	180,104,316	3.84%
2500, 2900	Other Support Services	114,455,735	2.44%
3100	Food Services	218,979,457	4.67%
3300	Community and Adult Services	4,962,104	0.11%
Total Current Expenditures		4,685,448,666	100.00%

9/20/08 FTE* (inc 4yr at risk) = 447,615.1
Area Square Miles = 82,019.7
Free/Reduced Meal Enroll. = 42.70%

*FTE for 2008-09 school year includes 2/20/09 count for military districts that meet HB2059 Military Provision. 2/20/09 count must be at least 25 FTE or 1% of adjusted 9/20/07 enrollment. Kindergarten students may attend full-time, however, under state law they are counted as .5 for funding.

Expenditures do not include equipment (700 object codes), Capital Outlay or Bond & Interest. [700 object codes include expenditures for acquiring fixed assets, including land or existing buildings; improvements of grounds; initial equipment; additional equipment; and replacement of equipment.]

Note: Transportation costs will vary based on the size of the district and the number of students transported. Therefore, you may want to exclude transportation for your district and recompute the percentages.

Explanation of Operating Expenditures and Cost Differences between School Districts

BACKGROUND

The operating expenditures attached are defined by the U.S. Census Bureau. Each state submits the data on an annual basis. Each function is defined by the National Center of Educational Statistics (NCES) handbook entitled "Financial Accounting for Local and State School Systems, 2003 Edition." The expenditure reports to the U.S. Census Bureau are completed by each state using the guidance of the NCES handbook.

POSSIBLE COST DIFFERENCES IN SCHOOL DISTRICTS

Comparing expenditures between school districts must be done with caution. Listed below are some of the reasons that may cause school districts' expenditures to vary.

- **Transportation Costs** – The size of Kansas School Districts vary from 10 square miles to nearly 1,000 square miles. In addition, the number of children transported also varies from just a few students to over 18,000.
- **Number of Buildings** – Because of the size of districts, some boards choose to operate more buildings, which result in additional operating costs.
- **Age of Buildings** – The age of buildings also may require more upkeep and be less efficient than new buildings.
- **Program Offerings Vary** – Some schools operate programs such as all-day kindergarten, Parents As Teachers, Summer School, and extended learning time for students.
- **Pupil Teacher Ratio (PTR)** – The size of a district in most cases will have an impact of ratios. Smaller districts may offer similar core courses as larger districts, but have fewer students which results in a lower PTR.
- **Students Eligible for Free/Reduced Price Meals** – Districts with a high concentration of students on free and/or reduced price meals pose a special challenge for those districts, such as the need for additional social workers or guidance counselors.
- **Bilingual/Migrant Students** – Schools with bilingual and/or migrant students have a greater cost due to the needs of those students.
- **Special Needs Students** – Some schools have a high number of special needs students which result in additional teachers, paraprofessionals, and transportation costs.

DISTRICTS LOCALLY GOVERNED

All Kansas School Districts are governed by local boards of education that decide locally how they want to operate their district. Some communities may prefer all-day kindergarten, while others may determine they want a smaller number of students for each teacher. Thus the percentage of expenditures reflects both the local decisions and the geographic makeup of the district.
