

SESSION OF 2007

**SUPPLEMENTAL NOTE ON HOUSE BILL NO. 2039**

As Recommended by House Committee on  
Energy and Utilities

**Brief\***

HB 2039 would amend the definition of renewable energy in several statutes. Specifically, the amendment would delete the word “thermal” from the definition of renewable resources or technologies.

**Background**

The bill was introduced by the House Committee on Energy and Utilities as a technical amendment to remove an apparently misplaced word in existing law. No conferees presented testimony in opposition to or in support of the bill at the House Committee hearing.

The Division of the Budget’s fiscal note for the bill was not available at the time the House Committee took action.
