Notes from U.S. Census:

Finances are classified according to the Census Bureau's classification methodology as outlined in the Government Finance and Employment Classification Manual.

(1) Within insurance trust revenue, net earnings of state and locally-administered pension systems is a calculated statistic (the item code in the data file is X08), and thus can be positive or negative.

Net earnings is the sum of earnings on investments plus gains on investments minus losses on investments.

The change made in 2002 for asset valuation from book to market value in accordance with Statement 34 of the Governmental Accounting Standards Board is reflected in the calculated statistics.

Data are released on a flow basis and replaced when revised data are available. See the Federal, State, and Local Governments release schedule.

RESPONSES TO KORA REQUESTS REGARDING MEMBERSHIP DUES, FEES, AND LOBBYING EXPENSES

The attached group of documents represents an effort utilizing the Kansas Open Records Act (KORA) to obtain information from certain counties and cities regarding the number of, and amount spent on, membership dues to various organizations, fees other than membership dues to organizations, and lobbyist services procured either by employment or by contract.

Sample. A group of counties was selected to include the most populous and some of the smaller counties, in an attempt to cover several areas of the state. The largest city in each of these counties was selected, except that two cities were selected for Montgomery County because they are similar in size. Following are the entities selected for the sample:

Counties	Cities
Brown	Hiawatha
Johnson	Overland Park
McPherson	McPherson
Montgomery	Coffeyville; Independence
Reno	Hutchinson
Sedgwick	Wichita
Shawnee	Topeka

This sample was not random; as such, the results cannot be generalized to the population of Kansas counties or cities. Additionally, the results were not audited. The attached results reported represent information returned by survey respondents. Some entities notified KLRD payment would be required for the entity to provide the requested information, and no payments were authorized, so no information is reported for those entities. Finally, the organizations named by the respondents often were identified *via* acronym; KLRD staff made a best-guess effort at discerning the acronyms and report based on that.

Examples of the request letters are included in the report, as are the results. The results are reported in the following tables:

- Organization Dues: Selected Cities;
- Organization Dues: Selected Counties;
- Organization Fees: Selected Cities;
- Organization Fees: Selected Counties;
- Employees Who Lobby; and
- Contract Lobbyists.

March 19, 2015

To: Senate Committee on Local Government

From: Martha Dorsey, Principal Research Analyst

Re: ADDENDUM: Sedgwick County Membership Dues and Fees: January 1, 2012 - July 30, 2013

This memorandum serves as an addendum to the summary memorandum issued on March 17, 2015 (and reissued on March 19, 2015), to the Senate Committee on Local Government. That memorandum summarized informational meetings of the Committee regarding government-funded associations, lobby influence, and costs.

In that memorandum, it was noted Sedgwick County submitted a response to a KORA request for membership dues and fees but the request had not been entered into the spreadsheets created by the Kansas Legislative Research Department (KLRD) summarizing dues and fees paid by selected counties. Upon reviewing the information submitted, it has been determined it would take numerous hours to enter, separately, the data from 17 pages of information so as to report to the Legislature in the same format.

Additionally, what was requested of Sedgwick County was two budget years' worth of information: 2012 and 2013. What was sent was information for January 1, 2012 – July 30, 2013.

The spreadsheets distributed previously distinguished between membership dues and fees. KLRD staff added by calculator all dollar entries from the PDF document received, without distinguishing between dues and fees, for an estimated total for the 18-month period of \$512,148.52.

This memorandum is intended only to document the actions KLRD was able to accomplish with the information in the PDF document submitted by Sedgwick County. It is important to note the county provided the information at no cost. To provide it in the required format, and for the entire 24 months requested, could have resulted in a charge to KLRD. As was noted in the original memorandum, no charges were approved by the KLRD Director for this request.
