To: The House Committee on Agriculture and Natural Resources

I am writing in opposition to HB 2541. There is a strong push by the Biden administration to capture our private land and natural resources in the name of "climate change" and "conservation." Over \$27 Billion dollars of our tax payer money has been designated to assist with the 30 X 30 agenda of the current administration. The department of Agriculture plans to use this to capture more than 100 million acres. <https://americanstewards.us/conservation-dollars-to-compete-with-working-landowners/>

HB 2541 is part of the Build Back Better initiate and I am shocked to see Kansas Republicans supporting it.

Please stand against this collectivist agenda and protect our farm land. Vote No on HB 2541.

Respectfully,

Scott and Amy Siple
