

Feb 15<sup>th</sup> 2024

Honorable Kansas Representatives and Senators

I am writing to you regarding election dropboxes.

We, Free State Volunteers, are the people standing each Saturday morning now for three years on the corner of 21<sup>st</sup> and Gage, with our American flags and the signs asking people to 'honk for freedom'.

We have been brought to this point by all that we see going on in American culture and politics today. Obviously, we love our country, and trust in you to protect our democracy.

Today we are offering our input to you directly, and appreciative that we may do so, with regard to these election drop boxes.

We are deeply concerned that, as documented in the film '2000 Mules', the election drop boxes were easily used fraudulently in the 2020 presidential election. Every effort must be made to ensure the legitimacy of our election process. Each vote must count, yes, and most importantly, one person=one vote. The drop box process seems prone to a lack of accountability and essentially leads to 'ballot box stuffing'.

There clearly were election irregularities in 2020. A concerned and alert group of brave citizens went to Washington about this and were labelled 'insurrectionists', many held still to now without due process. We all know about the efforts by the current administration and democratic majority to then 'reform' election laws and this was miraculously halted by one lone voice from West Virginia.

Such as this makes it clear that there is and will continue to be a direct threat to our election process. We must take every action to prevent this and so yes, our group is opposed to Ballot drop boxes.

Thank you and most sincerely,

Paul F. Stang  
Kansas citizen  
representing  
Free State Volunteers
