Bill #2791

Proponent

Written Only Testimony

Dale Enyart

Chairwoman Landwehr and Members of
the Committee

I support HB 2791 in the absence of an opportunity to support SB 233 being heard. I quite frankly do not understand why a bill that absolutely protects our children can't make it to this Committee to be heard. It makes me question the moral integrity of those we have elected to represent us.

HB 2791 provides ***SOME*** protections that our children deserve to have codified. I, myself, made ***MANY*** decisions before the

age of 18 that I definitely would not replicate today.....mostly due to lack of life experience and a world view skewed by media and social pressure. I would guess that many of you can say similar things, if you are honest with yourself. I implore you to do the right thing to protect our children by supporting HB 2791 and restrict some of the predatory practices that are allowed today.
