

HB2036

David O. Reynolds

U.S. Army Veteran

Proponent for Disabled Veterans only

Regarding Property tax exemption for Disabled and/or Retired Military Service Veterans, I fully support the exemption for "Truly Disabled Veterans" as written in the HB2036 bill. I am not totally in favor of exemption from property taxes for "Retired Veterans" since many of them go on to another career in business, industry, or government service after military retirement, and, therefore, earn a decent living over and above the Military Retirement benefits, and "retire" a second time.

Supporting the "Disabled" Veteran, especially those who have been severely disabled in mobility, physically, and mentally, is a priority in my mind.

Your consideration and support for Disabled Veterans is most appreciated.
