**Testimony to the House Transportation Committee
Neutral Testimony on HB2149
February 2, 2023**

Chairman Francis and Committee Members:

Our associations neither support nor oppose the base principle of the bill. However, it is important to public safety to continue the path of assuring that multiple plates cannot be issued with the same letter/number combination across counties or across specialty plate types. While we don't see anything in the bill that addresses this directly, it is important enough for us to submit neutral testimony on the importance of avoiding duplicate letter/number combinations.
