

SB 196

Chairman Tyson and Committee Senators:

We need to fund this SB 196 LAVTR for several reasons. My county doesn't have all the industry bigger counties have. We can take the heat off tax payers. I understand when the budget could not support this, but with an excess budget we have now the state needs to fund this. If not let us keep this and state will not get anything. If you keep taking and not investing in your counties you will eventually cut your own throat. Please remember this is an election year and to be honest your jobs could be at stake.

Sending with respect,

Kurtis Brock

Trego Co. district 1.
