RE: Testimony in Opposition to HB2238

Dear Committee Members,

I am very much opposed to HB2238.

This bill is very much a solution looking for a problem and as such I am not pleased at the amount of my tax dollars being spent here. I hope that the committee will choose to listen to actual constituents instead of people being flown in from out of state to claim there is a real problem here. Please oppose HB223 and stop wasting our hard earned tax dollars on problems that don't exist. Thank you for your time.

Sincerely,

Fred Bellemere

Lawrence, Kansas
