

## SB373 Proponent Written Only Testimony

Chairman Thompson and members of the committee,

I am writing to express my support for SB373, which addresses lobbying in Kansas. I believe it is essential to ensure the responsible use of public funds and maintain transparency in government operations.

The bill aims to prevent the use of taxpayer money for lobbying activities, which aligns with conservative values of fiscal responsibility and accountability. By setting clear guidelines, the legislation promotes ethical conduct within government entities.

The bill outlines provisions which allow necessary communication between government officials and legislators for the efficient conduct of public business. These strike a balance between accountability and the need for effective governance.

The accountability measures included demonstrate a commitment to maintaining integrity within the government. Ensuring that employees adhere to ethical standards is crucial for building public trust.

I believe SB373 reflects conservative principles by safeguarding taxpayer dollars and promoting ethical conduct. I urge the committee to support this legislation for the benefit of our state and its citizens.
