Chairman McGinn and Committee Members,

I am a proponent for Sb 86. We must keep the government overreach limited.

The Requiring of local governmental officials to disclose substantial interests in the construction and operation of a wind or solar energy conversion system and to abstain from all local governmental actions relating to such matters.

This is and will be an issue for Johnson County. Our Board of County Commissioners is heavily involved with with MARC and the New Green energy push of wind and solar. Also Mike Kelly the Chair actually is a partner of Husch Blackwell who helps get these companies off the ground and construction and litigations.

Please pass Sb 86.

Thank you
Debbie Detmer
