To: Senate Public Health & Welfare Committee,

I am writing in strong opposition to HB2264. This “no patient left alone act” is an atrocity. We do not need healthcare providers or the government having any more control over the rights of patients.

I have and know many others who have been denied access to a sick or dying loved one and this is wrong, wrong, wrong! Especially under the guise of any excuse. Please do not let this bill pass.

Thank you,

Vickie Vetter-Scruggs
