SB391

Proponent Written Only Testimony

Name: Jaime Kissinger

Chairman and committee members,

I am a proponent of SB 391, the constitutional right to health freedom act. This is crucial for protecting the rights of individuals when it comes to public health and infectious diseases. By withdrawing the authority of the secretary of health and environment to order individuals to isolate or quarantine, this ensures that individuals have control over their own health decisions. It also prohibits employers from discriminating against employees based on their vaccination status or isolation/quarantine orders, providing important protections for workers.

I urge the committee to support this important legislation for the well-being and rights of the citizens of Kansas.

Sincerely,

Jaime Kissinger
