

Kansas Senate Committee members,

Here are the topics of my oral testimony before your committee hearing, dated Tuesday, March 7, 2023.

I am retired and live in Marshall County, Kansas. Trains have become very dangerous for our community. I feel SB271 can help fix the issue.

My testimony will be in support of the Kansas Rail Safety Improvement Act - SB 271 and the need to include language addressing the requirement of 2 individuals as a train operations crew.

Sincerely,

Jim Swim – Marysville / Marshall County, Kansas
