

Carolyn Simms
HB 2063 Opponent

Dear Chairman and Agriculture and Natural Resources Committee.

I am a Kansas taxpaying citizen and I am writing in opposition to HB 2063 that would take hard-earned taxpayer money and set it aside for special-interest-groups. \$60 million in a slush fund for shenanigans, rather than being used for honorable projects like tax relief, infrastructure improvements, education, or otherwise needful projects that President Trump would approve of is unacceptable. Kansans voted for Donald Trump and not the likes of HB 2063, which President Trump is working so hard right now to dismantle.

Thank you for not passing this boondoggle bill out of committee.

Respectfully yours,

C. Simms
