SB76 Given Name Act
Opponent
Oral
March 4, 2025

Thank you chairwoman and committee members. My name is Eva Glancy. I am a student at Wild Flower Community School in Wichita. I am here today to voice my concerns about SB76. I've never understood why people, especially those in power, want so much to do with what people do with how they want to be called. The so-called "land of the free" pretends to be free while things like this take place that take away people's individuality and self expression. SB 76 will take away students' right to be called by a name and pronouns that they have chosen for themselves. Thank you. I will stand for questions.
