SB76 Given Name Act  
Opponent  
Oral  
March 4, 2025

Thank you chairwoman and committee members. My name is Ash White, I am a student at Wild Flower Community School and I would like to speak out against SB67. This bill targets those of the Trans community in a way that is potentially harmful to our mental and physical health. Being addressed as who we are is a must in order to live our true lives. As someone who goes by a different name and pronouns than I was assigned at birth I ask you to look past the papers and what you see on the outside, and look at what's on the inside of a person and let us live our true lives. Thank you. I will stand for questions.
