House Bill 2489 Fentanyl Education.  
Neutral.  
Written Only  
House Committee on Education  
February 5, 2026

Chair Estes and Members of the Committee:

Olathe Public Schools supports the message and intent of House Bill 2489. Fentanyl and opioids have a devastating impact on our community, families, and the students we educate.

Olathe Public Schools' age-appropriate curriculum on health and safety incorporates education and awareness of the highly dangerous and unpredictable threat of fentanyl. Additionally, life-saving naloxone is available in all our school facilities.

We support the goal of educating school boards on the risks of fentanyl and the benefits of naloxone and encourage frank engagement in the education process. However, we believe locally elected school boards are the best method to shape local policy on most issues.

We appreciate the opportunity to testify.

A handwritten signature in black ink, appearing to read "B. Yeager", is positioned above the typed name.
