SB4

Proponent

Written Only

Chairman Proctor and Members of the House Elections Committee,

I am submitting my proponent testimony on SB4

I support SB4 as this bill sets a firm deadline for the return of the advance voting ballots by 7:00pm on election **day**.

I believe election results should be determined promptly on election day and not have the process last for several days or weeks.

When the ballots are counted in a timely manner, this will create a consistent election process that all voters can rely on, the public will have more confidence in the electoral process and the firm deadlines for ballot returns will strengthen public trust to ensure fairness

Thank-you

Tammy Minihan
