**Citizen and Voter**

**SUBJECT: SB 4 - Written Testimony in Opposition to eliminating the 3-day grace window for mail-in ballots.**

**To: [h.elections@house.ks.gov](mailto:h.elections@house.ks.gov)**

**There is no good reason for eliminating the 3-day grace period for mail-in ballots. Eliminating this grace period will not make elections safer; our elections are already very safe.**

**Eliminating the grace period will hurt rural, elderly, military, disabled, and other people eligible to vote but unable to drive to election offices.....for various legitimate reasons. We are all aware that USPS has been having unpredictable delivery delays in Kansas, especially in rural areas, but also in various cities here in Johnson Country. Therefore, eliminating the 3-day mail delay window would be unfair and make a significant number of citizens' votes not count.**

**Please vote NO on SB 4 that will do nothing but eliminate votes made in good faith by many Kansans.**

**Thank you for your service to our state.**
