

Testimony to the House Elections

January 20, 2026

Bill 2452 Opponent

Heather Schroer

[haschroer8200@gmail.com](mailto:haschroer8200@gmail.com)

Chair & Members of the Committee,

I am writing in opposition to this proposed bill to move non-partisan elections to even numbered years. Doing this would place them on the ballot alongside many other partisan races. These election issues are meant to be separate from partisan politics.

Additionally, the ballot in even numbered years is already long and difficult to wade through knowledgeably. Adding to the length of those ballots will only provide less clarity and more confusion for voters.

Please vote no on this bill.

Thank you,

Heather Schroer
