To: Chairman Proctor and Election Committee

Subject HB 2452

Voter turnout matters. Just like my previous bill, HB 2452 moves elections to November of even years. A compromise was reached with opponent to move elections to November of odd years. This is the current law of the land. Everyone agreed we needed to increase turnout. I was doubtful that this would work. I stated that we would be back someday after the turnout did not increase. HB 2452 will increase turnout. Please pass this bill out of committee, so that we can have a full debate on the House floor.

Thank you for letting me testify and I stand for questions.
