HCR 5021 Opposition Testimony
1/29/2026

Thank you committee members. I am Jenna and I vote in Shawnee County.

Watching you waste time on bills like this is so annoying. I was writing testimony during my birthday dinner. Vote no to spend time on literally anything else.

Can we please debate legislation where there are actual studies that support the idea? Can we please focus on policies that resolve actual problems? Why do we keep making up solutions where there aren't problems? Are you guys just bored?

Thank you for your time. I encourage you to vote no and spend your time on meaningful bills. That's what we pay you for.
