Re: Proponent Written Testimony in Support of HB2204

Dear Chairperson Kessler and Committee Members:

I am here to express my strong support for AN ACT concerning certain international organizations, which safeguards that the World Health Organization, United Nations, and World Economic Forum have no jurisdiction or power in Kansas.

This bill is essential to preserve Kansas sovereignty, allowing us to make decisions that best reflect the needs and values of our people without outside interference. By asserting that no rules, mandates, or regulations from these organizations can be enforced in Kansas, it protects our state from policies that may not align with our local priorities.

Kansas should maintain the right to govern itself, with local leaders accountable to our citizens. This legislation safeguards our autonomy, ensuring that only policies created by Kansans will affect Kansans.

I urge you to support this important bill to protect our state's independence and local decision-making.

Thank you for your consideration.

Respectfully,

Jaime Kissinger
