Bill # HB 2204

Proponent Written Testimony Only

Conferee: Mary Stang

Representing: Self

To Whom This May Concern, Committee Chairman, Committee Members,
My name is Mary Stang and I am a lifelong resident of Sedgwick County. I am writing this testimony as a proponent for HB 2204 that states that no outside organization should have any kind of power or voice in Kansas at all.

After Covid 19 and the way that the international organizations handled it and covered up the facts and pushed treatments and vaccines that killed and injured people I will never comply with the advice or mandates they set. They did not research it enough and the global public were the guinea pigs for the experiment of Covid 19 and the weaponization of an animal virus that should have never affected humans. The WHO, WEF, NATO or the UN do not have America or Americans best interest in mind and have no power here at all. Each country is different and each country should handle what happens within it themselves and should never allow outside interference of this nature. By allowing these organizations to have pull, a say so or govern our country in any way could and probably will lead to One World Government and or a dictatorship of some kind and that is not what America was founded on or formed. We are independent and sovereign and should always remain that way. We need to keep these organizations at arms length and take them with a grain of salt. America is capable of handling our own crisis and Kansas as well as each of the 50 states have the ability to handle their own as well. We do not need advice or control from anyone or any country outside of our shores unless we reach out and ask for it. We the People are in charge of America and We the People of Kansas have control over our state. We the People have control over our own body and health PERIOD and nobody else has that right EVER! It should be honored, protected and made known to all always. It is up to our elected servants to uphold this autonomy over ourselves and set it in stone so we do not have to discuss or defend this again. Thank you for your time and consideration.

Sincerely,

Mary Stang

Proud American and one of We the People, Mom and Grandma and Who
Stands Behind the Constitution which is the Only Law of the Land
