HB2204

Proponent

Written Only

Chairman Kessler and Members of the Fed State Affairs Committee

I am submitting my proponent testimony for HB2204

This bill ensures that Kansans are not subject to external mandates such as those related to public health, environmental issues, or other global concerns that may not align with our state's interests.

This bill also affirms Kansas autonomy by preventing international organizations like the WHO, UN and WEF from imposing regulations or mandates within the state.

The people of Kansas, through their elected officials, are best suited to decide what policies will work for our state.

Thank-you

Tammy Minihan

Republican Precinct Committeewoman

Sedgwick County
