HB2204

Proponent

Written Only

Chairman Kessler and Members of the committee,

I am submitting my proponent testimony for HB2204. This bill is straight forward. The WHO, WEF, and UN have tried putting their hands into everything around the world. We don't need them, we don't want them, and they need to go away. If any type of mandate or recommendation was to be announced by the WHO, WEF, or UN, the state of Kansas should not have any expectations of enforcement to follow what they say.

I urge the committee to support HB2204.

Respectfully,

Brett Anderson
