

3.8.25

House Fed and State

Hb 2379, Opponent, Written only testimony

Hearing 3.13.25

Chairman Kessler and Committee Members,

I am an Opponent to Hb 2379. I do not trust a list of any kind. This states it is voluntary until one day it may not be. I do not want this in our laws in Kansas. I have witnessed the failures of the Healthcare industry in these last years over covid our elderly dying all alone. The mandates from the state, counties, and businesses. These mandates created the mental crises we are in today. The fear mongering, loss of jobs and homes, the isolations cascaded.

Please DO NOT pass out of committee Hb 2379.

Thank you,

Debbie Detmer

KS GOP delegate
