HB2379

Opponent

Written Only

Chairman Kessler and Members of the committee,

I am submitting my opponent testimony for HB2379. I'm not real sure I understand the entire premise of the bill. I'm asking the KBI to not sell a gun to myself? If you are mentally unable to own a firearm, wouldn't you be mentally unable to file this report? If you were mentally unable to own a firearm, are you mentally unable to remove yourself? To me this bill does not make any sense. It opens opportunities for someone to become restricted on owning a firearm who should not be. We don't need another list for citizens to be on. With as inefficient as the government is, I don't trust them to keep this list up to date. Please don't push forward this nonsense.

I urge the committee to not support HB2379.

Respectfully,
