HB2134

Proponent

Written Only

Chairman Humphries and Members of the committee,

I am submitting my proponent testimony for HB2134. I strongly support the part of HB2134 dealing with defined costs associated with KORA requests. The past four years have been turbulent, and the amount of citizen involvement has been on the rise. Some jurisdictions have attempted to charge an overly higher price to try and slow down the number of open records requests. A defined cost for copies and research will make things easier for both sides to know exactly what the costs will be. I urge the committee to support bill HB2134.

Respectfully,

Brett Anderson

Republican Precinct Committeeman

Sedgwick County
